SERIOUS CRISIS IS DEVELOPING IN CHINA

Rogers Runs Out of Paint; Towns Used It on Homes

(Special To The News)

BEVERLY HILLS, Cal., May 5.—Say, those that thought Will Hays was over in France just to get away from the Republicans are mistaken.

No wonder Will draws such a big salary from the movies. He earns it.

Did you see what he did yesterday in France? France was about to bar our movies and Bill made 'em sign a contract where they not only retain our movies but for every seven of ours the French see, they will have to look at one made in France.

That satisfied the French producers. All they wanted was to make theirs compulsory.

Yours, WILL ROGERS.

P. S.—Say, I run out of paint. Some towns were painting their own homes with it.

PA NEWC OBSERVES

Suggestion made in council that operators of one of the bus lines traversing Atlantic avenue are to make application for permit to haul passengers between this city and the Oakland district as a result of the Mahoningtown bus line being discontinued, is one that should be carried out. There is no reason why these buses on the Mt. Jackson, Enon and Wampum routes that go through Oakland should not be allowed to handle passengers from that populous section and the uptown section.

New Castle is gradually taking steps to aid the aviators that may come this way in having roofs painted with the name of the city and directions. The court house roof is the latest to be utilized. Plans are being made for other steps of this kind.

Announcement by County Medical Director Dr. H. C. Harper that some 7600 more school children in the city and county have been given the diphtheria immunization treatment in the past few months is received with gratification. New Castle and Lawrence county are making excellent progress in the matter of elimination of diphtheria.

At least one member of the New Castle city council is right up to date, or even ahead of the march of progress. Councilman C. H. Reeves made his appearance with a straw lid yesterday, by way of a pre-season greeting to the summer.

New Castle autoists going into the country districts tomorrow for enjoyment of the beautiful countryside in springtime should remember not to pluck the wild flowers. Let them alone.

The last few summer days have brought forth the blossoms on the early fruit trees almost over night. We noticed this morning that many trees have broken forth into full bloom, including peach, cherry, plum and pear trees.

Farmers have taken advantage of the fine weather of the week to rush their spring work. Many acres thruout the district have been plowed and much oats has been sowed during the past few days. In spite of the cold weather of the past few weeks, it is not likely that the farmers will be far behind with their work, provided the fine weather continues.

Country dirt roads have become quite thoroughly dried out the past few days but even yet some are in a bad condition due to the bad washing they got late last fall and the heavy rains and open weather during the winter. In many places they have been worked and graded and dragged, yet there are many dirt roads still very rough on account of drying out quickly after being cut up by traffic during the rains and snow of a few weeks ago. Ashes have been placed on many of the roads of the county during the winter and thus much improvement made.

As a peach tree, probably it wasn't so good; it had not been pruned for many years, and it might not be pruned for many more. But, last evening it became an object of interest to seven boys of the North Hill. For on it were blossoms and blossoms were coveted for the dining room table or what have you? This morn-

Grave Situation In China; League Crisis Is Seen

Interference Of Japanese Armies In Nationalists' Sweep Northward Causes Unrest

ANTI-JAPANESE FEELING STRONG

Powers Unable To Agree Upon Means Of Stopping Depredations By Marauders

By LAWRENCE SULLIVAN
International News Service Special Correspondent

WASHINGTON, May 5—An international crisis of grave potentialities is presented today in Shantung province by the interference of Japanese troops in the northward sweep of the Nationalist forces toward Peking.

The state department has reasserted its policy of neutrality, but is ready to protect American lives and property.

Japan, according to information received today at the British and French embassies, is determined to protect her 8,000 Nationals in Shantung at any cost up to military occupation of the entire province. This step would at once frustrate, for the second time in as many years, the climatic effort of the Southern armies to capture Peking and consolidate the Nationalist revolution within the ancient capital.

Anti-Japanese feeling throughout China is described as riotous and there is grave fear that the situation may get out of hand on all sides.

Minister Mac Murray, at Peking, advised the state department that violent anti-Japanese pamphlets distributed in Vheefoo and Tsingtao, presumably by the Chinese Nationalists, have created a situation menacing to all foreigners. American gunboats are standing by at Cheefoo.

Despite continued reports of attacks upon foreigners by Chinese detachments, the powers have been unable to agree upon any policy for curbing the depredations.

Negro Alleged To Have Struck Man Blow, Causing Fracture Of Skull

(International News Service)

SHARON, May 5.—Said by police to have been struck on the head in an argument with F. D. Maxwell, 54, negro, J. D. Cornwell, 40, formerly of Youngstown, O., died in the Buhl hospital today from a fractured skull.

Maxwell was held in the city jail pending a coroner's inquest. The negro knocked Cornwell to the street, his head hitting the curb, according to police.

Seaplane Fliers Set New Record

Heavy Seaplane Stays In Air 36 Hours And Five Minutes In Endurance Test

(International News Service)

PHILADELPHIA, May 5.—Thirty-six hours and five minute after they took to the air in the naval seaplane PN-2, Lieutenants Zeus Soncek and Arthur Gavin ended their endurance flight at 3:55 o'clock this morning. They broke the world's endurance record for seaplanes by seven hours and 29 minutes.

The aviators flew back and forth on the 100-mile course between here and Cape May. They descended only when the fuel supply of their 19,000 pound craft had been exhausted.

INJURED BY AUTO: BOY SEEKS DAMAGES

Richard Payne, aged 12 years, by his father Walter Payne, has filed a suit in Lawrence county court against Tony Calvern in which he asks for $186 damages as a result of an auto accident on the New Castle-Ellwood road. While crossing the road Richard was struck by the Calvern machine, had one arm broken and was cut about the head and face. It is claimed that the auto was being operated in excess of 30 miles per hour.

PARDON IS GIVEN TO WILLIE FISHER

(From News Bureau)
(State Capital)

HARRISBURG, Pa., May 5.—Deferred decision in the appeal for a pardon for Willie Fisher, who was serving a penitentiary sentence for being one of a gang that held up the Union National Bank in New Castle several years ago, has been given, and Fisher is now out of prison under a pardon action.

Fisher's case has been before the pardon board a number of times and the latest hearing which resulted in the pardoning action, was heard a week or more ago.

Death Follows Explosion Burns

Ralph Perrone Is Fatally Burned At Fireworks Plant Explosion

SMALL BUILDING AT PLANT BURNS

When explosives which he was mixing at the chemical house of the New Castle Fireworks Company, east of the city limits, exploded late Friday afternoon, Ralph Perrone, 33, residing at 226 South Jefferson street, was fatally burned. He passed away last night at the New Castle hospital, where he was taken immediately after the accident.

According to attaches of the New Castle Fireworks Company, Perrone was the chemist and was mixing what is known to them as "aluminum". Suddenly an explosion occurred, flames burst forth and Perrone ran from the building, which was rapidly enveloped in flames.

Paul Rozzi, manufacturer, had Perrone rushed to the New Castle hospital, while a force of employes fought the fire.

The building, 20x20, which was destroyed by the flames, is segregated from other small buildings which prevented other blasts.

Deceased is survived by his parents, Mr. and Mrs. Vincenzo Perrone, his wife, Amelia, and three sons, Paul, Carmine and James. He also leaves two brothers, Carmine, of Italy, and Samuel, of San Antonio, Texas, and two nieces, Mrs. Sam Leonardo and Mrs. Tony Perazzano, of New Castle.

Funeral services will probably be Monday, May 7, at 9 o'clock, from St. Vitus church. Burial in St. Vitus cemetery.

Damage Totals Thousands Of Dollars As Corduroy And Slicker Factory Burns

(International News Service)

PHILADELPHIA, May 5.—Nearly 50 firemen were overcome while fighting a blaze in a five-story corduroy suit and slicker factory here during the night.

Two firemen are in a serious condition in hospital today but will recover, according to physicians.

Twenty other firemen were taken to hospitals suffering from gas poisoning. Thousands of persons lined the streets to watch the flames.

Damage will total thousands of dollars.

FEAR HARVARD STUDENT LAKE ERIE PLANE VICTIM

(International News Service)

BUFFALO, N. Y., May 5.—Flying from Cleveland to Buffalo in a Kress biplane James M. Lapey of Kenmore, a Buffalo suburb, and a young man believed to be John Rosecrans, 22, of Milwaukee, a Harvard student, lost their lives when the plane crashed into Lake Erie, it was believed here today.

There were several witnesses to the accident, which occurred last night, but before they could reach the plane the gasoline tank exploded, and both men sank in the wreckage.

The identity of Lapey, son of Percy Lapey, a prominent insurance man, was established by telephone with Cleveland.

Await News At Boston.

BOSTON, May 5.—Officials at the East Boston airport today were anxiously awaiting news of the whereabouts of John Rosecrans, young Harvard law school student, enroute here by airplane from his home in Milwaukee.

Uneasiness was expressed as the result of a report from Erie, Penna., received at the airport to the effect that an airplane had taken a nose dive into Lake Erie, near Long Point, Ont.

Rosecrans left here two weeks ago in a biplane with gray wings and blue fuselage with red stripes—similar to the plane that dropped into the lake.

On his return trip, according to information at the airport, Rosecrans stopped at Cleveland and was joined by James M. Lapey, of Buffalo, N. Y., and another man. Later came the report of the fatal plunge of the airplane into Lake Erie.

Believe Yacht Is Lost At Sea

Severe Gale On Atlantic Coast May Have Swamped Yacht On Way To Florida

(International News Service)

NORFOLK, Va., May 5.—The yacht Zelda is believed to have gone down at sea, according to Capt. W. Flaherty master of the yacht W. J. Connors III, owned by W. J. Conners, publisher of the Buffalo Courier-Express.

The Conners yacht arrived here today from Palm Beach having consumed two weeks in making the trip. She, with 20 other yachts were obliged to put in at Southport, N. C., and other way ports to escape a series of storms that swept the coast last Monday and Tuesday.

The Zelda put out from Southport in rough weather and has not been heard from according to Captain Flaherty.

A Phidadelphia owned yacht, also is missing. Both craft are believed to have gone down. The gales that swept the coast and caused much larger vessels to seek shelter.

Harry A. Donaldson of 420 Park avenue, who has been confined to his home for some time, is improving nicely at the present time.

Chicago Day's Goal Of Runners In Pyle's Derby

Entire Field Of 70 Finishes 60-Mile Trek Of Friday In Good Shape

DILKS CHECKS IN WITH GOOD TIME

Race Likely To Reach New York By End Of Present Month

By LELAND C. LEWIS
International News Service Staff Correspondent

JOLIET, Ills., May 5.—C. C. 'Cross Country' Pyle's bevy of bunionists celebrated their ninth week of their toughened toe entourage by moving out of here for Chicago, a 40-mile stalk through heavy traffic today.

Peter Gavuzzi, youthful Britisher, who has covered the 2359.1 miles from Los Angeles in 384:32:08, held a lead of six hours, 58 seconds over Andy Payne, youthful Oklahoman and his nearest rival.

Gardner Leads Today.

Ed Gardner, Seattle sheik, walked his "dawgs" in fast time Friday over the rain-swept 89.1 miles from Pontiac, being first in 7:43:52. As a result he displaced Mike Joyce, Cleveland Irishman, in fifth place. Guisto Umek, Trieste, Italy, was second in 7:54:25.

Gavuzzi, Olli Wanttinen, New York, and Roy McMurtry, Indianapolis, and John Salo, Passaic, tied for third in 8:10:16. Gavuzzi on Friday moved up 41 minutes 22 seconds on Payne, who tied for second place.

Illinois state motor police protected the runners in their Chicago trek today. A detail of motorcycle men were assigned to force a wedge for leaders in their trek to the state armory.

To Gary Sunday.

Saturday night will be spent at the Windy City with a 7 a. m. start Sunday being the send-off for the day's 40-mile jaunt to Gary, Ind.

California's two physical culture vegetarians, Roy Sandsberry, Beverly Hills, and Karl Larsen, Los Angeles, demonstrated 2359.1 miles of abstinence from meat and eggs as an article of diet by finishing in a tie for 19th place in 11:03:58. Sandsberry stands 26th in the race and Larsen 47th.

Earl Dilks, New Castle, Pa., finished in 11:45:25, for an elapsed time of 558:07:25.

Olli Wanttinen, New York's 90-pound Finnish sensation, displaced John Cronick, Saskatoon, in tenth place in the grind. Olli tied for third in 8:10:16 while Cronick was 21st in 11:07:57.

To South Bend Monday.

Monday, the bunion derbyists will essay another lengthy jaunt—60 miles

Dirigible Italia Is Weather Bound, Craft Is Damaged

Envelope Of Huge Dirigible Slightly Rent In Landing, Will Not Hamper Trip

(International News Service)

OSLO, Norway, May 5.—Foggy weather and raging storms over Spitzbergen today prevented the Polar Dirigible Italia from continuing on its flight to King's Bay, Spitzbergen, from Vadsoe, Norway, where it landed safely over a turbulent flight from Stolp, Germany.

In landing, the envelope of the airship was rent slightly but the damage was not great enough to prevent the continuance of the flight.

General Umberto Nobile, commander of the ship, and his crew of sixteen were royally entertained by citizens of Vadsoe today.

BOYS EXHIBIT THEIR PETS IN PARADE THIS MORNING;

Dogs Make Up Largest Group Of Pets In Procession

Some Unique Spectacles Are Presented In Rotary Parade

Motor roars were silenced this morning on Washington street to give way to the yelping of terriers and the baying of hounds. Mere millionaires were shunted aside to give his Royal Highness the American Boy and his dog the right of way, and for half an hour business men left the cash register unguarded while they watched the Pet Parade sponsored by the Rotary club as a part of Boys week.

Most of the pets were dogs, as you might imagine. Ferocious looking police dogs and sleek, aristocratic setters with pedigrees as long as the parade. Impertinent looking little terriers that snapped derisively at coon dogs and dish face bull dogs marching alongside of fuzzy white spaniels. Small boys tugging manfully at leases, and dogs nearly strangling in their attempts to get a chance at some age old enemy.

All Sorts of Pets

But in addition to the dogs there were other pets. A number of cats, daintily dolled up with colored ribbons, a pet monkey, a woodchuck, some chickens, ponies mounted with embryo Tom Mixes and one pony and cart owned by Richard Rentz.

There were some amusing occurrences during the parade. One little tike had an enormous coon dog on leash and the youngster's arms must have been pulled nearly from the sockets as he tugged away endeavoring to keep his pet in line. One rather snooty looking white dog just refused to walk and his little owner hoisted him upon his shoulder. One entry was an express wagon full of black pups, and another a baby carriage with a group of little white

Youth Admits Killing Seven In His Family

Confession Clears Up Mystery In Wholesale Crime In Kansas

(International News Service)

ELDORADO, Kan., May 5.—Owen Oberst, Jr., 17, only surviving member of the Owen Oberst family of eight, found in the ruins of their home April 20, last confessed to authorities here today, he had killed his five brothers and sisters, his father and mother and set the farm home near Burns, Kan., on fire, to hide his crime.

The youth had been under suspicion since the finding of the bodies in the burned home. He had protested his innocense, however until last night, when he confessed. Authorities made public the youth's story today.

Refused Family Car

According to the confession, young Oberst said his father and mother had quarreled and had refused to permit him to use the family automobile.

On the day of the slaying, the youth said his father had gone to town and in his absence decided he would kill the family. He said he shot Herbert, 6, Hugh, 10, Ralph, 14, his three brothers, and Dorothea, 16, and Edith, 8, the two sisters in the kitchen of the home and then shot his mother in the dining room. He told of pouring kerosene over the bodies and how he laid in waiting for his father whom he shot as he entered the door. He then dragged all the bodies to the kitchen and set fire to the home.

Young Oberst said he went to a movie after he had set the home afire.

South Carolina Valley Flooded; Thousands Flee

Inhabitants Of Fertile Saluda Valley In South Carolina Flee From High Water

BREAK IN DAM IS EXPECTED ANY TIME

Property Damage Will Mount To Thousands Of Dollars; No Loss Of Life Feared

(International News Service)

GREENVILLE, S. C., May 5.—Thousands of persons, taking with them what belongings they could move, left their homes in the fertile Saluda valley today for higher ground as the peril of a devastating flood became more imminent.

Much of the valley was already covered with water which rushed down from the new Greenville waterworks dam at Table Rock Cove. Starting with a small leak around the drain pipe, the break today had grown larger than a two-story house, although the entire structure had not yet collapsed.

Dam Is Crumbling

GREENVILLE, S. C., May 5.—The grim spectre of devastation hovered over the rich Saluda valley cotton mill and farming region today as the gigantic power company dam at Table Rock Cove, 30 miles from here, began crumbling and 6,000,000,000 gallons of water began flooding over the vast area.

Engineers at the power house, adjacent to the dam, believed that it would be only a short while before the crumbling dam would give way entirely. Early today a small crack was discovered in the structure, and by 11 o'clock this morning this had widened to a gap of more than 30 feet.

The water, which had been leaking from a drain pipe throughout the night, rushing in great volume to the Saluda river below, after the dam cracked, and the Saluda river was rising at a fast rate.

River Is Rising

From six p. m. yesterday until midnight the river was rising at the rate of a foot and a half each hour, but the rise of the stream was much greater after the earth dam began to give away this morning.

The break in the dam, which is located on the Greenville-Pickens county line, occurred on the Pickens county side. The 30-foot crack extended from the top to the bottom of the dam, a length of 112 feet. The dam is 700 feet long, 145 feet high, 650 feet thick at the base and tapers off to 50 feet at the top. While the huge reservoir was not completely full, it was estimated there was between 6,000,000,000 and 7,000,000,000 gallons of water behind the dam.

Engineers concurred in the belief that it could be only a few hours before the dam at Table Rock Cove would give way. The river below, in which the lake poured is rising steadily.

Three Are Killed As Plane Falls

Using Light Plane For Stunt Flying Causes Fatal Accident

WIVES WITNESS HUSBANDS' FALL

(International News Service)

DAYTON, O., May 5.—Three persons were dead today as the result of stunt flying in a light passenger plane when it collapsed 1,500 feet in the air and crashed to the ground last night.

Those killed were Harold J. Forshay, U. S. army reserve pilot, and Walter Clark and Blair Cross of Dayton.

Forshay, considered an expert aviator, borrowed the small passenger plane to take his two friends on a ride. At a high altitude, Forshay began to do stunts while a crowd of several hundred looked on. One wing of the plane broke free and the plane crashed to the ground, barely missing another plane that had just taken off.

The wives of Forshay's two passengers witnessed the crash and collapsed.

"The plane was not built for stunting," Johnson, owner of the plane, said. He attributed the accident to Forshay's aerial stunts.

CHARGE DRIVER VIOLATES RULES IN SCHOOL ZONE

O. A. West, charged with violating the traffic regulations of the city with regard to school zones, paid a fine of $5, when he appeared before Mayor William H. Gillespie Friday.

He was charged with going through lines of students from the Home street school at Home and Mill street.

Mayor Gillespie announces that a much heavier fine will be imposed in every instance of second offense and it is possible that the fine for first offense may also be increased, as this is considered one of the most vital regulations of the city.

ing it is not a tree. It is a mere stick. Almost all of the branches have been torn from it.

No matter how dumb Ohio officials think Pennsylvania drivers might be, yet Pa Newc does not believe that there is one driver in the western part of our state who would make a left hand turn at an intersection where it is expressly forbidden, as one man from Ohio did this morning at the corner of Washington and Mercer streets. How did Pa Newc happen to notice it? Well, it was just in time that he scurried from under the wheels of the approaching Juggernaut.

Others may watch professional baseball games, but Pa Newc gets far more pleasure from that gang of sandlotters who operate just across from the Highland school every nice evening. Scores run into enormous figures, because everyone hits and runs. When a side goes out, it is more good fortune than anything else.

That the streets of New Castle will be flushed in the near future is very gratifying to Pa Newc. For he is tired walking about with red eyes from the dust that is raised on a windy day. Then, the same dust gives the city a dingy appearance. Flushing will relieve this. But Pa Newc would also like to see something done about the waste paper which floats about the public square every Sunday morning. There should be some way to stop those who sell Sunday papers from scattering their waste all over the place.

And then they wonder why the crime wave is not abating. News reaching this city today is that Willie Fisher who took part in one of the most notorious holdups in the history of the city a few years ago ,and was given a 15 year sentence by the local courts has been given a pardon by the state board.

FEAR FOR SAFETY OF FOREIGNERS IN TSINAN DISORDERS

(Continued From Page One)

ers are concentrated for safety, but the Nationalists have laid down a heavy bombardment on the settlement.

It is feared that the Nationalists will break down the Japanese detachment's resistance before reinforcements arrive from Tsing-Tao.

Chiang Kai-Shek, commander-in-chief of the Nationalists, is reported to have destroyed bridges over the Yellow river and torn up the railroad that runs from Tsing-Tao to Tsinan. This will seriously delay the arrival at Tsinan of 5,000 Japanese troops now rushing there.

Heavy Loss of Life

The Nationalists in Tsinan are said to number 30,000. In looting Tsinan, they ran amuck, shooting at all foreigners on sight. Those who could, fled to the safest haven, the Japanese settlement. Many who were caught outside, are believed to have been killed.

Ministries of the United States and European nations have been unable to get word from their consulates in Tsinan. No word has come from J. N. Avent and G. R. Woolf, American employes of the Standard Oil company, of New York, whose property at Tsinan was invaded by the marauding Nationalists.

The Chinese have sustained heavy losses at the hands of the defending Japanese. Hundreds have been killed and many wounded.

Three Japanese destroyers with 5,000 additional troops are enroute to Chinese waters.

Munitions Running Low.

Unofficial advices put the Japanese military losses at 25 soldiers killed.

The war office was informed that Japanese munitions and provisions were running low, but offcials were confident that the Japanese forces are sufficiently supplied to suppress all Chinese opposition.

SOUTH CAROLINA VALLEY FLOODED; THOUSANDS FLEE

the city waterworks. "There will be no disaster until the dam gives away, and then there's no telling what will happen," he added. "It looks pretty bad."

Should the dam collapse, it was expected property damage would run into the millions of dollars, as the valley is dotted with cotton mills and rich farm lands.

Although the towns in the area were mostly deserted and the people moved to higher and safer ground, it was feared there still might be some loss of life in case the giant dam suddenly breaks today. For many persons in the outlying farming districts had not left their homes, and a few remained in the towns. It was estimated that more than 25,000 persons took what belongings they could move during the night and left the valley.

By courier and by telephone the people of the valley were warned throughout the night to flee to safety.

Several large towns and cotton mill sections were in the path of the threatened deluge. There is Piedmont, a place of 4,000 inhabitants, a few miles below here; then Pelzer, with a population of 6,000 or more, and further down the valley is another town, Ware Shoals.

But from Ware Shoals on down to Columbia, the state capital, where the Saluda and Broad rivers merge into the Congaree, there are no settlements of any size along the river, and it was believed that no loss of life would be likely in that area.

Since around midnight the area has been closely guarded and no one has been allowed to go near the place. County authorities stood guard over all the roadways leading to the dam. Automobile traffic near the dam was stopped where the water poured into a gorge and flooded some of the roads.

The dam, located about three miles from Greenville, was completed last fall at a cost of $1,000,000 and has never been placed in use in connection with the city water system. It had never been completely filled and only recently had tests been made there.

Asks $20,000 For Injuries Sustained When Hit By Truck

Joseph M. Ehrlich Files Suit Agains The Italio Produce Company

Joseph M. Ehrlich of Laurel Boulevard, has filed a suit at the prothonotary's office against S. P. Smith and others, trading as the Italio Produce Company, in which he asks for $20,000 damages as a result of being hit by a truck of defendant company as he was alighting from a street car on Mill street.

In his statement of claim Ehrlich alleges that the car had stopped and that he was in the act of walking from the door to the curb when he was hit by the truck. He was knocked down, receiving severe injuries about the back and spine, and also numerous cuts and bruises. A hernia from which he suffered was also made very much worse.. He was confined to his bed for seven weeks and was not able to be out of the house for two months. As a result of the accident he fears that an operation will have to be performed for hernia. He also alleges that he lost heavily in business in consequence of the accident. It is alleged that the truck was being driven in excess of 20 miles per hour and that the driver was negligent in failing to stop for the street car.

Who Owns This Pair Of Corsets?

Proof Conclusively That Women Have Not Stopped Wearing 'Em

Where is the man who not so long ago stated that women no longer wear corsets?

Should he be located he is apt to be charged with having uttered something that is contrary to the truth.

At least, there is one pair of corsets at the Pennsylvania-Ohio Electric railway office.

They were found on a street car, turned over to a dispatcher and now await an owner.

But the corsets was not the only article found—gloves, and other articles having been left on cars.

Should the owner of the corsets not call within 30 days, they will be turned back to the finder.

Youthful Vaulter Gets Broken Arm

Arthur Stanley, aged 14, 716 East Washington street, a student at Ben Franklin junior high school, has returned from the New Castle hospital, where he was taken following an accident while practicing pole vaulting at school and in which he sustained a compound fracture of the left arm.

He was removed to the hospital for the purpose of having an X-ray picture taken to determine the full extent of the injury. He is considered one of the very promising pole vaulters of the public school system.

Heater Smokes And Firemen Are Called

Firemen were called yesterday to the home of Harry James, 320 West Grant street, by an alarm from box 18. The firemen on their arrival there found that the heater was smoking as a result of burning paper in it. There was no fire loss sustained.

An alarm from box 511 Friday afternoon called the firemen to the end of Waldo street, where they found it necessary to combat a grass fire.

BOYS EHIBIT THEIR PETS IN PARADE THIS MORNING

(Continued From Page One)

pups. One lad had a dog so small that he carried it in the palm of his hand, while still another little fellow had a dog which was nearly as tall as his owner.

Some of the dogs were dressed up in gaily colored wrappers. One looked like a canine Pierrot, while still another was gowned like a Poodles Hanneford. Saucy pups voicing their pride in being in the parade, barking their greetings at friends on the sidelines, and boasting in their doglike way of the fact that they were probable prize winners. And of course some dignified setters that marched along with military precision, refusing to be a part of any unseemly demonstration. Shaggy collies that wore a bored air, and tough looking airedales with hair down over their eyes. A crate of rabbits, a besmudged little lad carrying a pup hardly old enough to have its eyes open. Another youngster dressed up like Lord Fauntleroy, with a log chain holding his dog to him. Laughs at the rate of fourteen a second as the comical cavalcade made its way up Washington street, with traffic officers stopping everything and everybody to allow the boys and their pets the right of way.

Drum Corps at Head

At ten ten, the line of march moved out from the Legion home with Scout Troop 15 drum corps and motor cycle officers Augostine and Richards at the head. Then Louis B. Round, John Myers and Harry Bailey as Marshals. Then the parade. And what a parade it was.

Staid business men laughed until the tears rolled down on their four dollar neckties as they watched some lad heroically endeavoring to keep his pet under control. Forty years of time rolled back as they stood there, and the lads out in the line of march were themselves and the scene was a farm lane.

It was a humorous ending to Boys week, an ending that was well worth while. An ending that gave a couple of hundred boys the opportunity to parade the "best dog in the world" and at the end of it, the judges, Jack Grittie and James J. McMillin waiting to give out the prizes offered.

Prize Winners

The list of prize winners awarded for the parade follows:

Longest dog—Thomas Thompson, 307 North Beaver street. Prize, base ball.

Smallest dog—Josiah Strayer, R. D. No. 2, New Castle. Prize, base ball bat.

Tallest dog—Howard McCune, R. D. No. 2, New Castle. Prize, scout book.

Thinnest dog—Bobby Beck, 41 S. Beaver street. Prize, scout book.

Unique pet—Leroy Anderson, Moore street. Prize, ball bat.

Prettiest cat—Robert Rodgers, 730 Croton avenue. Prize, base ball.

BOY SCOUT Activities

Troop 5

Elks Boy Scout troop 5 held its weekly meeting at the Elks home on North Mill street. The meeting was in charge of Scoutmaster Davis, assisted by Walter Kerr and Ormando Lattavo. Sol Davis, committeeman, was also present.

The program of the meeting was a surprise. A mock court session was first held, with Arthur Lattavo as the defendant. The case that was brought up for decision against the defendant was one of non-payment of dues. The judge selected for the occasion was Robert Rodgers. The prosecuting attorney was Sol Davis. The jury was composed of Orlando Hartman, Jess Colaluca, Harry Brown, Alfred Howard, Hugh Irwin and Dominick Morgan. The witnesses were Bernard Lutz and Ralph Davis. The lawyer for the defendant was Tony Mick. The case was very interesting and was soon brought before the jury. After being out five minutes the jury brought in a verdict of "not guilty".

After the court was over a feed was served by the committeemen. As this program was so very interesting to all those present, the Scouts are anxious for the committeemen to give them another surprise.

Board of Review

The monthly board of review will be held Monday evening at Scout headquarters. This will be the last review before the opening of camp. All Scouts who have handed cards in should be present. The meeting will begin at 7:30 o'clock. Scouts must bring all equipment necessary in the passing of the tests and should wear full uniform, or as much as possible; also all badges received to date. This rule must be carried out or Scouts will not receive awards applied for.

FATHER-SON BANQUET AT FIRST CHRISTIAN

More than 100 fathers and their sons enjoyed the banquet at the First Christian church Friday evening at 6:30.

The musical program consisting of pep singing and special numbers was in charge of R. E. Johns, choir director. Two vocal numbers by William Whieldon, accompanied by Katheryn Nessle, and an instrumental duet by Jesse Eckert and Frank Byers, accompanied by Mrs. C. H. Holcomb, were much enjoyed.

The speakers for the evening were Robert Tully, who spoke in behalf of the fathers, and Scott Tully, his son, spoke in behalf of the sons. Both of these addresses were filled with suggestions and advice that was appreciated by all. Scott Tully concluded his remarks by reading an original poem about "Dad".

Following this Dr. E. W. Thornton of Cincinnati, who is an author of many books on Sunday school work and one of the contributing editors to the Lookout, delivered an address which was filled with good usable philosophy interspersed with many fine stories and illustrations.

The committee in charge consisted of Joseph Lindsay, Ira Snider, C. C. Stump, Sidney Smith, Frank Norris and Herman Workman.

The banquet was served by the Loyal Leaders class, assisted by other women of the church.

Dr. C. H. Holcomb was the toastmaster.

Sunday evening service is special for boys. All boys are invited whether they are members here or not.

Assistant Electrician Is Reported Improved

William Riley, assistant city electrician, who was severely injured several weeks ago, when a curb light pole, which he was assisting in setting up at Mercer and Washington streets, fell on him injuring him internally and at the hip, is now much improved. He has so far improved that he was removed this week to his home on Park avenue from the New Castle hospital. It will probably be some time before he is able to return to duty, as he is compelled to use crutches in getting around at the present time.

THE THINNING ROLL

THIS year Memorial Day will find the pensioned veterans of the Civil war reduced to fewer than 80,000. In March 1,283 of them died and April began with the rapidly thinning ranks reduced to 79,300.

There is now no Civil war veteran on the pension roll under the age of 80 years, so the nation must be reconciled to the loss of most of these venerable and revered survivors during the next decade. From now on the grim reaper will redouble his efforts. Each year the Memorial Day roll call of those who have passed away since the preceding May 30 grows longer.

It was not until 1898 that the pension roll reached its peak with 745,822 pensioners. Due to added benefits the peak in pension payments—$141,377,515—was not reached until 1923. Since then the decline has been rapid.

Pension figures for the Civil war give the nation some idea what the World war will cost it through the veterans' bureau. The government is already spending many millions for the care and treatment of disabled veterans, and if history repeats itself, as it is likely to, the peak of this expenditure will not be reached for two or three decades.

The peak pension list for the Civil war did not come until more than thirty years after the war and the peak pension payments did not come until twenty-five years later. The last survivor of the Revolutionary war died April 5, 1869. On May 13, 1905, the last survivor of the War of 1812 died. There are five living veterans of the war with Mexico. Some who served overseas in 1917 and 1918 may outlive the twentieth century.

ANONYMOUS LETTERS

MORE trouble in many places over anonymous letters!

There are two main reasons why an anonymous letter is worth no consideration. First, the subject-matter is no good. If it were worth the paper it is written on, the writer would not be ashamed to sign it. Second, the writer is a coward. If he were not, he would sign his letter even if it contained unpleasant tidings. The man who is really seeking the public good, or private benefit to someone, may dislike to be known as the bearer of difficult or disastrous news, but he conquers his distaste for the sake of what he deems the necessity.

When a good citizen finds it needful to make an unpleasant communication he picks up his courage in one hand and his hat in the other and goes in person to tell his tale with quietness, decency and dignity. If obliged to write, he does so with restraint and over his name.

There is but one course for the recipient of anonymous letters to pursue: Keep a sample for future reference as a clew, burn the rest, and forget the substance.

Typing is as distinctive and easily traced as handwriting, nowadays, and writers of such letters can be found out. There are penalties none so sweet.

A schoolboy was summoned to a principal's office on some trifling matter of school committee work. He caught sight of a letter on the principal's desk and asked at once, "What has my dad been writing about?"

"Are you sure that is your dad's writing?" asked the principal.

"I'd know it anywhere," said the boy. "See the way he makes his M's?"

The principal remarked with a smile that the letter was about a small civic matter, and went on with the affair in hand. One very nasty mystery was thus solved. Such an accident might happen to any writer.

HIGH PRESSURE

THERE are too many break-downs among American business men, says an eminent neurologist. Too many good men dropping out of the ranks.

What's the trouble? Too much working at high speed, wearing out the body and mind. Not enough leisure and recreation. Business is put first and health last. It should be the other way. When it isn't nature punishes the offender.

This high-pressure-career mania is killing individuals, lowering the nation's health and retarding progress.

What to do? Mostly, be sensible. Do what you know you should to keep well. If you don't know, ask your doctor.

If you want signs, says an expert, look out for "a disturbed sense of well-being, increasing weariness and a gradual failure of concentration." When they warn you, lay off.

A popular person is one who enjoys being bored.

The amount of insurance some men carry flatters them.

Some women are so foolish they should have been men.

Work was invented by people who were too nervous to sit still.

One thing about bathing suits is you no longer have to take a girl at face value.

The practical man puts two and two together and gets four. The dreamer gets twenty-two.

If all the statisticians were placed end to end, we'd have a new statistic about as worthless as some of the others.

A Chicago man who was a member of a jury that tried a murder case is being held for contempt of court because he held the jury up on it's verdict and stood for a modest verdict instead of first degree murder. PRIZES

I do not ask for wealth,
For riches are a burden
And a care.
They bring no joy
Except to such as find
In envy of their fellows
A pleasure that is vain
And shameful to the soul.
Enough is all I ask
—enough to eat and wear
—a place to sleep, a roof
To shelter me and mine.
And who the owner is
I do not care,
So I can call it home.

I do not ask for fame,
For fame is man's opinion,
Often wrong, that gives
A generous praise today
And on the morrow
Changes praise to scorn
Or else forgetfulness.

I do not ask for place;
For those who sit on thrones
Or on a judgment seat
Are lonely men
Made lonely by their greatness,
And a great gulf is fixed
Between them and the hearts
Of those they rule.
Wealth and fame and place
Are prizes to be won
By those who prize the glare
Of great white lights.
They are a just reward
For such as strive to win
The dross that common men
Set their hearts upon.

But I, if I could choose,
Would have none of these.
But only ask of God
A gentle woman's love,
A woman's comrade smile,
A woman's tender hand,
A woman's soft low voice;
A home in which to rest,
And friends to gather there;
Trees of my own planting,
And birds upon my steps;
The quick, gay laugh of children;
Books to read at night;
The soothing charm of music;
A fire on my hearthstone.

Enough is wealth enough;
Peace is more than fame;
Power is a burden.

Give me only twilight,
The rain's soft, friendly murmur,
A sweet and gentle woman
Whose heart of understanding
Affords me comradeship.

These are the greatest prizes.
Oh, God, be generous.

THE VICTORIOUS GENERAL

It was after the battle, and dead men were strewn hither and yon. Up rode a general to headquarters where he reported to his superior.

"Sir, I have the pleasure to announce a great victory."

"Very well," replied the commander-in-chief, "go congratulate your troops."

"I don't think it would be wise."

"Why not? Didn't they win the fight?"

"Sure, but there's nobody left."

The national debt of the United States will be reduced over a billion dollars this year. This country has been lucky in having the great men at the head of this country who have been since the war. We would be paying plenty of taxes and things would have been far worse than they are now—and still some are knocking. Later on maybe they will have real reason for yapping.

A woman in Omaha is going to run for the school board and she thinks the election will be a test as to whether Omaha citizens believe whether she threatened to shoot her husband or not. She evidently thinks a school board is sort of a political machine, which it could be and very likely is, or is being made in some places. Anyhow, we cannot figure out what she is running for the school board to prove she is all right. While most all members of school boards are the finest people in the world, once in awhile one creeps in that would be better out.

It looks as if Mr. Smith of New York, is going to be about the almost unanimous choice of the Democrats for president of the United States. Keep your eye on Mr. Smith. He is going to benefit greatly by the education people have been taught so liberally about party lines in small elections. Those same pupils are going to carry their education along that line into national politics. You moderal and careless voters are due to a ram in the slats and it may come this fall.

Mr. and Mrs. Henry Ford have left England and are on their way home to this country. Mr. Ford had very little to say when he left England and we have no record of Mrs. Ford having said anything while they were abroad. You can bet one thing and that is that Henry will get something out of that trip that will be of some service to humans. He knows his automobiles.

LOVING IS LIVING

Praying is asking the Lord to bless,
Sighing is wishing for happiness.

Yearning is hoping for brighter skies,
Smiling is calling the sun to rise.

Weeping is seeking some sorrow's end,
Helping is being a faithful friend.

Yielding is fearing the bitter strife,
Musing is trying to fathom life.

Dreaming is drinking of twilight dew,
Loving is living—and I love you!

Heart Disease, Beware
What Is British?
Turtles—4-and 2-Legged
We Work In Twilight

By ARTHUR G. BRISBANE
(Copyright, 1928, by N. Y. American, Inc.)

The death of Alvin Krech, of the Equitable Trust Company, stricken at his desk in New York City, reminds this country that heart disease becomes more and more appalling in the United States, causing 12 in a hundred deaths.

Money impresses us, so note that heart disease costs in actual money more than fifteen hundred million dollars a year, not counting cost of caring for heart cases, $104,000,000 more.

Dr. White, of Boston General hospital, surprises all, and annoys prohibitionists, with a statement that fat is more dangerous to the heart than alcohol, tobacco and coffee combined.

Millions of Americans that know all about an automobile engine know nothing about the care of their own engine, beating before birth and ending its work at death.

Some Canadians want to "Keep Canada British;" don't want their country to become a "melting pot." But what is "British?" The home country, Great Britain, has been a melting pot for ages, having melted up Danes, Normans, Scandinavians, Celts, Basques, Romans, Phoenicians, and many others. Those races have been to Great Britain what reinforcement is to concrete.

And in Britain's melting pot don't forget the Jewish race. Jews, after Cromwell, did more than any equal number of Saxons or Danes to build British commerce. And one Jew, Disraeli, who made Queen Victoria Empress of India, came back from Berlin bringing "peace with honor" and beautiful cypress, which Britain still has.

On the Galapagos Islands giant tortoises are dying out, wild dogs and pigs kill them while they are young. One hundred and nine tortoises, brought young to the Bronx Zoological Garden, will be fed until their shells become so thick that wild dogs and pigs will not bite through them. Then they will be put back on the far off islands, where sailors depend on their meat.

Why don't rich men have some sort of zoo nursery for their sons, keeping and training them there until they become safe against biting attacks of sharpers, bootleggers, night clubs and other "wild dogs and pigs" that bite through their financial shells?

Baldwin, British prime minister, says a great religious revival is coming and he couldn't carry on his work except for his belief that "some day—may be a million years hence—the Kingdom of God will spread all over the world."

"We seem to work now in a twilight or fog," says he. That's how tiny creatures worked that built the coral islands below the water. Our human world will rise into the sunshine of civilization some day, as those coral islands rose long ago above the waves of the Pacific.

In ten months of this fiscal year the nation's debt has been reduced one billion dollars, leaving only nine and a half billions of Liberty bonds outstanding. Secretary Mellon and the president, who supports his policies, are to be congratulated. A good time to pay debts is when you have the money.

Edsel Ford, president of the Ford company, announces organization of a $10,000,000 credit bureau to handle customers' purchases of cars on installments.

Financing and regulating the time purchase of automobiles by General Motors and others have greatly stimulated the automobile industry.

Nick Viana, once a choir boy, turned murderer at 19, helped to kill a man and steal $3 from him. Before he was hanged, his mother took Nick's 10-year-old brother Paul to see him in prison. Paul promised "I will always be good."

The "kid brother" remembered that trip to the death house when he was sentenced last Wednesday to life imprisonment for holding up a street car conductor and stealing $8.22.

Human beings rarely learn from any experience except their own.

Sir Samuel Hoare, British air secretary, announces a weekly air service between London and India soon.

Van Lear Black, of Baltimore, hires an air taxicab and will fly 40,000 miles from Britain to South Africa, China and Japan. Two pilots, a mechanic and a valet will go with him. Anybody can fly safely who chooses to exercise common sense.

Dr. Crane's Editorial

THE GREEN CROSS

A resolution has been introduced in the senate by Senator Copeland of New York, and a similar one in the house by Representative Evans, giving official recognition to the American Green Cross and providing $120,000 for this work.

The Green Cross has been actively functioning for the past five years protecting our forests, and having among its incorporators many of America's foremost citizens. It is a body with an educational program and represents a work that is sadly needed.

Too much attention cannot be given to the conservation of our forests and their intelligent use.

This fact has been called to our attention by a series of unprecedented disasters, floods, fire, drought, pestilence and famine which have destroyed hundreds of millions of dollars' worth of property and left devastation in their wake.

In the Mississippi Valley 700,000 homes were destroyed and 600,000 people made destitute by the flood last spring.

In the New England states over 100 lives were lost and much damage done by flood. Destructive cyclonic winds caused much loss of life around St. Louis.

Altogether, thirty-four billion dollars and many thousands of American lives have been lost in these disasters. There is nothing of more widespread benefit to the people than flood control, farm relief, forest fire prevention and reforestation. This needed work is that to which the American Green Cross addresses itself.

Dr. Harvey Wiley says: "As we learn lore of hygiene we understand better the relation between trees and health and the necessity of pure, clean air to be obtained from the forests."

We can live less than five weeks without food, less than five days without water and less than five minutes without air. All these necessities are practically dependent upon trees.

"The trees are as necessary to the earth as are capillaries to the body."

M. Jean Cabart declares that "the world is drifting toward becoming a huge desert swept by floods and tempests because of deforestation." He calls upon the governments of the world to cease their senseless destruction of trees and begin comprehensive policies of reforestation.

In the late Mississippi flood if the rainfall and snows had been retarded by the proper forestation the water which went down the main channel in three weeks would have taken six, flowing with only one-half the head.

Bible Thought For Today

THE RIGHTEOUS AND UPRIGHT—Surely the righteous shall give thanks unto thy name: the upright shall dwell in thy presence.—Psalm 140:13.

PRAYER — Thy righteousness, O Lord, is an everlasting righteousness, and Thy law is truth.

The World AND THE Mud Puddles

OH BOY! WHAT A MAN

Theodore Roosevelt was a many-sided man. He learned the Persian lesson of how "to Ride, to Shoot and to Speak the Truth," and practiced the knowledge gained. He did more than serve a nation politically. He taught the youth of the Nation that they should "never flinch, never foul, but hit the line hard." He was a Writer as well as a Doer, and his Books will live. Some of his experiences as a sportsman and the statements of his opinions regarding sport are worth recalling.

For instance, most persons have never heard of or have forgotten an incident near or on the Keystone ranch in Colorado, in January, 1901, which sheds some light on his nerve. Concerning it Mr. Roosevelt wrote to his oldest son: "This time, after a couple of hundred yards, the dogs caught him, and a great fight followed. They could have killed him by themselves, but he bit or clawed four of them, and for fear he might kill one I ran in and stabbed him behind the shoulder, thrusting the knife loaned me right into his heart. I have always wished to kill a cougar as I did this one, with dogs and the knife."

Pretty good for one who two years later described himself to a friend as "a stout, elderly President," though in the same year he was writing: "Yesterday I tried Bleistein over the hurdles at Chevy Chase. The first one was new, high and stiff, and the old rascal never rose six inches, going slap through it. I took him at it again and he went over all right."

Not all of Mr. Roosevelt's jumps were brush, for instance not any that he encountered when out with the Meadow Brook, where on one occasion, a few years earlier, he came such a crowner over timber that he suffered a broken collar bone. The fact that Mr. Roosevelt lost the use of an eye as the result of a boxing match in the White House, but kept the truth secret is, of course, now known.

Some indications of his feelings concerning such episodes as he expressed them several times in the autumn of 1903 are preserved. "When I was young and rode across the country I was light and tough," he stated, "and if I did, as actually happened, break an arm or a rib no damage ensued and no scandal was caused. Now I am stiff and heavy, and any accident to me would cause immense talk, and I do not take the chance simply because it is not worth while."

The following spring, however, he tried wrestling with two Japanese professionals three time a week. They whirled him over their heads and batted him down on the mat, once gave him a sore throat by the strength of a stranglehold which he attempted to break by promptly trying to choke his antagonist, bruised his body painfully, twisted his left wrist, right ankle, one thumb and both large toes until their usefulness

FILLING THE OTHER'S PLACE

'Tis nice at times to speculate
On what we'd do or say
If chance should ever make us great
Or fortune come our way.
At times the housewife views a dame
Bejeweled, proud and fat,
And thinks if wealthy she became
She'd never look like that.

The servant sees a social queen,
Eyes wide for each mistake,
And thinks if fate had kindlier been
A better queen she'd make.
The valet hurries out to tell
From all that he observes
That were he master he'd excel
The one he daily serves.

Nor from this notion am I free,
For often I declare,
I'm certain I've the wit to be
A first-rate millionaire.
I think that I could walk with kings
And keep my balance, too,
And never do the foolish things
Which certain rich men do.

And yet the while I speculate
On what I'd do or say
If chance should ever make me great
Or fortune come my way,
I'm making blunders of my own
For all the world to see
So, letting other folks alone,
I'll try to better me.

MYSTERIES

What profound and beautiful mysteries are all about us! I sit across the table, talking to a friend while we eat. We talk of inward things. We speak of the soul, and of spirit, and of God. We admit that we do not know what we are talking about, but we are curious. We seek to exchange impressions and thoughts and ideas about the most important things. Why are we here, and what is our responsibility, and to whom do we owe the responsibility that we feel for conduct and living and achievement? Do we matter? A great city swirls its life about us, and we wonder whether we are even more inconsequential than we seem.

Always, when I enter into this kind of discussion with a friend, I feel the inadequacy of language. All my life I have studied words, and have placed great faith in them. But when I want to convey across the table the concepts I have formed about the elemental things of life, I find that my vocabulary is helpless.

"What is spirit?" says my companion. And I flounder in a morass of words. I know dictionary definitions and theological explanations of spirit, but I realize that something else is needed. We must express something now which we have not wholly comprehended. Well, I do not know what spirit is. That is a fair answer. Spirit is one of the mysteries.

* * *

And the soul. Some of my readers, especially the collegians, will be inclined to smile at the word. They will say that soul is just a word, a superstitious word. But that is the attitude of inexperience.

Across the table from me is a human body. I have read allabout it in books, and although it is full of mysteries that the books have not explained, yet I know some definite things about this body. But that is not all. The bodies are ingesting food, and sitting at ease. The two souls are reaching out, peering, seeking, inquiring, adventuring. What is ove rthere What is the color of that life? There is a congenial quality in this soul that is so near, O for understanding!

The souls, it seems to me, are held back by the bodies. There is a screen. The bodies sit strangely calm, ingesting food, smiling, making rapid sounds called conversation. The souls are impatient, yearning for understanding. And the mystery is sublime

Withdrawal Of Walsh From Presidency Race Gives Smith Strength

Anti-Smith Faction May Use Platform As Means Of Defeating Alleged "Wet"

Senator Reed Of Missouri Will Not Quit Fight, Believe Smith Certain Winner

BY GEORGE R. HOLMES
International News Service Staff Correspondent

WASHINGTON, May 5. — Senator Thomas J. Walsh's withdrawal from the Democratic presidential race was accepted today by all shades of Democratic opinion in Washington as copper-riveting the nomination of Gov. Al. Smith.

All but a few of the most radical bitter-enders against Smith concurred in Walsh's analysis of the situation—claims of any other to party leadership in the ensuing campaign." Even these are convinced that Smith cannot be stopped, but they are not saying so publicly for their own political reasons.

Reed Lone Opponent

The withdrawal of Walsh, who was backed and sponsored from the outset by Wm. G. McAdoo and the so-called "McAdoo group", leaves but one major candidate in opposition to the New York governor, Senator James A. Reed, of Missouri, who has approximately 65 votes to date, as against well over 500 for Smith.

Senator Reed does not intend to quit. He has based his entire campaign on the issue of "corruption in government" and he intends to go ahead with it.

"I entered this contest," said Reed, "because I believed some one representing Jeffersonian Democracy and devoted to the cleansing of Washington ought to be willing to undertake the task.

There are great issues in this campaign which appeal to the hearts and consciences of the American people and the convention at Houston will at least, have an opportunity to vote on them.

"I am glad Senator Walsh has withdrawn. It clarifies the situation and emphasizes the issue. I only wish he had reached his conclusion before he muddied the waters by entering the California primary."

Although he did not say so, directly, Senator Reed left the impression that so far as he is concerned Gov. Smith is not a satisfactory candidate until he expresses himself on this "corruption in government" issue which the Missourian believes outranks all others in the campaign.

Fight For Oregon Vote

Reed and Smith will come to grips again in Oregon, on May 18, and in West Virginia on May 29, without the diverting factor of the Walsh candidacy. Reed ran second to Smith in California.

While Walsh's withdrawal forecasts the nomination of Smith at Houston, it does not, by any means, follow that the Texas convention is to be any grand and glorious Democratic love feast. Wounds such as the party has experienced in the last four years do not heal so easily, nor are great differences so easily reconciled.

In the opinion of many Democrats here, both Smith and Anti-Smith, the main fight will now be transferred from the candidate to the platform.

Wm. G. McAdoo saw and presumably approved Walsh's statement of withdrawal before it was issued. So did several others who are militantly dry, and to whom Smith's prohibition views and his Tammany affiliations are anathema.

May Break Back.

One of them made the private prediction today that "if Al Smith runs on the platform which will be adopted at Houston he will break his back trying to explain to the country the difference between the platform expressions and his own personal views.

It is the determined purpose of this wing of the party to force into the Houston platform a militant prohibition plank—not a mere law enforcement plant, but a plank which specifically commits the party to the inherent morality and righteousness of prohibition.

Even his opponents admit that the New York governor is a blunt and courageous man. It is entirely within the range of possibility, they believe, that Gov. Smith would decline to stand on a platform which specifically committeed him to advocating the inherent righteousness of prohibition, because it would obviously be so at variance with his well known views.

Hence unable to stop the New York governor through the delegate route, it might be possible to do it through the platform—provided, of course, that the dry element in the convention is strong enough to write the platform of party principals. Such, at least, is the talk of Washington today.

was temporarily impaired and finally proved so strenuous that he found it necessary to give up their services or forego eight hours a day of "grappling with Senators". Desiring still to function as Chief Executive he determined not to get his exercise by wrestling, when especially busy with administrative duties.

Nevertheless within a short time he was taking lessons in jiu jitsu from a Professor Yamashita and wrestling with Commander Takashita, the Japanese naval attache, and young Kitgaki, who was in this country to enter Annapolis. During the same period he boxed in the afternoons with Grant, then the champion middleweight wrestler in the country, and true to his sporting tastes once matched the American against the Japanese professor to see whether the proponent of the Eastern or the Occidental art could win out.

The man who kept himself in such good trim while President that he could tramp for twelve hours consecutively through the Virginia woods and meadows, could keep up with seasoned woodsmen and hunt the trail for twelve days to get his bear, could spend from nine to fifteen hours in a saddle on the plains and tire out his cowpunching friends, could give at least a creditable performance in an English saddle across country, and could take on professionals in boxing and wrestling between seven-act matches of tennis, began life with a frail constitution which interfered with college athletics.

All which shows the remarkable versatility of one of the Great Presidents.

We aint near so fearful that some train or trolley 'll beat us t' th' crossin' as we are that it'll be a tie.

Free Of Neuritis Misery Since He Got His Konjola

New Castle Citizen Says The New Medicine Ended All The Aches And Pains.

MR. JOHN CARNAHAN
Seavy Photo

Reports of what Konjola has done in actual cases are appearing every day in the New Castle papers and at the same time vast crowds of people are calling daily at the Love & Megown drug store, 204 East Washington street, New Castle, and interviewing the Konjola Man where he is personally explaining this new medicine to the public.

"Konjola is first of all a new, advanced remedy," said the Konjola Man yesterday. "It is a liquid, containing medicinal extracts from twenty-two plants of Nature. This compound works with the sufferer's own food, restoring the stomach, liver, kidneys and nerves to better action. It removes the poisons which cause most of the chronic aches and pains, and therefore, the people, who take Konjola nearly always report new feelings of health over their body in general."

Another surprising statement has been received which shows what Konjola is doing for neuritis sufferers in this vicinity. The statement came from Mr. John Carnahan, well-known local man, living at 416 Vine Street.

"Neuritis is terrible," said Mr. Carnahan. "I was suffering for some time, almost every day, and Konjola was the only medicine that really ended the awful aches and pains so they never returned.

"My shoulders and arms were affected, so that I couldn't raise my hand to my face. The pains centered mostly in my shoulders, sometimes affecting my entire body. It took almost all my strength to walk up a few stairs. The neuritis was aggravated by lead poisoning which came from the paints I had to use in my work. Then my liver and kidneys became affected. I was subject to headaches and dizzy spells all during the day because of my sluggish and torpid liver. At night I had to rise several times due to weak kidneys. My whole system was in a weak and rundown condition and worst of all, I never could find a medicine that would help me.

"But Konjola was entirely different in my case. It helped me in a short time, and I noticed the pains easing up. Before the second bottle was gone I felt sure I would soon be entirely well, so I kept on taking Konjola and now I am making this endorsement, which speaks for itself. It is an honest fact that I am free of all the pains I was suffering. My arms and shoulders never hurt me and I got wonderful relief from the other pains in my body. My liver is in good condition and the headaches and dizzy spells are ended. My kidneys are stronger and I don't have to get up during the night. I seem to have more life and energy to do my work. I can easily see why the people of New Castle are praising Konjola and I know what this medicine has done in my case, so I am glad to endorse it to others."

The Konjola Man is at the Love & Megown Drug Store, 204 East Washington street, New Castle, where he is daily meeting the public and introducing and explaining the merits of this remedy. Free samples given.

Heads Track Team In School Play

ROBERT WEINGARTNER

"Bob" Weingartner plays the part of Wally Pierce, captain of the Ohio State track team, in the rollicking college comedy, "The Poor Nut", by the Nugents, being staged by the Seniors of Ne-Ca-Hi next week and he plays the part well. He is everything that a college track captain needs to be ——big, dashing, handsome, modest, and once and for all the big Koh-I-noor idol of all the co-eds. He is active in his fraternity, the exclusive Phi Sigma and is popular with students and faculty alike.

He has a most hectic time trying to develop a winning track team, maintain harmony in the ranks of the athletes and to keep the poor boob, John Miller, away from the wild women and his "psychic libido," inflicted upon him by the mystic vamp, Julia Winters. But he does succeed, and how. The libido shrinks back into oblivion, and everything ends as it should. Of course, to our young Thespian goes the lion's share of the credit for these things, and as the immortal bard of Avon was won't to ejaculate over a high powered ale mug, "All's well that comes out clean from the wash."

County Convention Thursday, June 7

Plan For Great Sabbath School Gathering At Cathedral Next Month

The chief matter of discussion at the executive committee meeting of the Lawrence County Sabbath School association was the coming county convention to be held at Scottish Rite cathedral on Thursday, June 7, morning, afternoon and evening sessions. The plans are to have this county convention as big as a state convention, and state convention material has been provided for all of the sessions. Then, too, the Christian fellowship banquet in the cathedral dining room between the afternoon and evening sessions will be a happy occasion.

Letters will be sent to the various Sabbath school superintendents next week, giving the number from each Sabbath school to attend the Christian fellowship banquet, based on enrollment. Some of the Sabbath schools are sending their pastor, superintendent and teachers, as well as officers, and are paying for the tickets for these representatives which are one dollar each. Those not doing this are disposing of the tickets among the Sabbath school membership. Reservations with the money should be sent to Mrs. William J. Marshall, county secretary, not later than Monday, May 21.

The chorus choir, which will be under the direction of John W. Owens, should, where possible, be the same as those who took part in the choir for the state convention last fall. The number of singers from each Sabbath school will be furnished to the Sunday school superintendents in the above-mentioned letter.

The program for the county convention is an especially strong one and such speakers as Rev. F. B. McAllister, Dr. F. Hadwin Fischer, Rev. E. H. Bonsall, Jr., and others will take part.

Hoover And Smith Majorities Show Decided Increase

(International News Service)

HARRISBURG, May 5.—Official election returns from six counties were filed today in the state bureau of elections. In each of the counties Herbert Hoover and Alfred E. Smith continued as the popular choice of their parties for president.

Counties filing today were Carbon, Crawford ,Fayette, Lebanon, Sullivan and Susquehanna.

Votes in the six counties showed a wide choice in the selections for president. Names of Governor John S. Fisher, Henry Ford, Mayor James Walker, William S. Vare, Charles Evans Hughes, John A. McSparran and Hiram W. Evans ,Ku Kluk Klan official were included in the list.

The Hoover total in the six counties was 3,194. Coolidge received 918 and Smith 2,083.

TELEPHONES

Americans will do well to take time off now and then to appreciate their telephone service. It wasn't long ago that it was published that the average time for completing a telephone call between Paris and Brussels was three hours, or 180 minutes. The railroad time between the two cities is 217 minutes. Unless there has been improvement recently it is about as feasible to send a messenger from one city to the other as it is to telephone.

Although there are many great and important cities in Europe the fact remains that up to a short time ago London had telephone communication with but five of them. Paris had communication with nine and Berlin with thirteen.

NEWS IN ADVERTISING

Advertisers do well who take notice of the news element in announcing what they have to sell. People are always attracted by novelty. The old goods may be just as good but folks will run to see what is new. Old books are just as good and usually better than new ones but any librarian will tell you the great demand is for new books.

The advertiser who realizes this and who creates for his store a reputation for always bringing in new goods is the man who will never want for trade.

NOT ALL IN THE ENVELOPE

The pay envelope falls far short of explaining why the captain goes down with his ship; why the nurse faces death with her patient, or why the coal miner risks his life in gas and under a treacherous roof.

Whiting Williams knows what he is talking about when he says this. He spent months in mines and factories to learn what the workingman thinks about.

There is deep down in every human being the desire to take himself seriously and to be respected by his fellowmen. He knows that to be good at his craft means a long step in getting respect for himself.

Employers will do well to remember that recognition of a human soul is the most important kind of recognition in the world.

FLATTERY

A wise Frenchman once remarked that if we did not flatter ourselves the flattery of others would not hurt us. But we do flatter ourselves. When others flatter us it confirms our sweet conviction that we are quite wonderful. Then comes the fall — and that's what hurts. Even if we don't fall we are hurt by the decreasing respect of our fellows.

City Now Possesses Uptodate Firehouse

New Fire Station Cost Will Not Reach Appropriation Figure

When the new fire station in South Jefferson street, is formally opened for public inspection, citizens will find that it is one of the most up-to-date stations for fire equipment; built at a most economical figure. It is reported that the final cost of construction will not reach the appropriation of $35,000, made for the improvement. The plans were drawn by J. A. Altschuler and the general contract was given to L. F. Vaughn.

The building is of fireproof construction, brick walls and concrete floors. It is a two story structure and on the first floor can be located four pieces of equipment. The doors will be opened by hand but a 'timer' automatically closes them after the apparatus leaves the building to answer fire alarms. Also on the first floor will be a signal room, chief's private office, storage and repair shop, the base of the hose tower and in the rear, a boiler room.

The second floor will be occupied by dormitories, recreation room, bathrooms, locker room, kitchen and a steel stairway which leads from the first floor will connect the second floor with the roof. The tower extends from the first to the top of the building and there will be room for 10,000 feet of hose equipped with washing devices which saves time.

Within the near future the city electricians will locate the delicate electric alarm system.

The general contract price made by L. F. Vaughn was $27,225 and the heating and plumbing price by William Clark company was $4,223.

Gilfillan Electric company secured the wiring contract at an approximate price of $805.

Sunday Concert Battle Continues

PITTSBURGH, May 5.—Attorney General Thomas J. Baldrige today was granted permission to intervene in the suit of the Pittsburgh Symphony Society in superior court, involving blue laws of 1794, prohibiting concerts on Sunday.

Baldrige last week petitioned for the right to intervene because the "issue involves interpretation of the construction of the act and that it is of supreme importance to the commonwealth that the act may clearly be understood and uniformly administered throughout the state".

A "showdown" on the Sunday concert question is expected with the suit of the Sabbath Association of Pittsburgh aimed at preventing further concerts before the superior court on appeal from the county court.

CHICAGO, May 5.—Suit was on file for $2,000 damages here today against Charles C. Pyle, promoter of the bunion derby from Los Angeles to New York.

The suit was filed by Valeska Suratt, former stage star and motion picture actress.

The nature of the suit was not made public.

BUYS FIRST 1928 BUDDY POPPY

Elsie Janis, sweetheart of the A.E.F. ten years ago, is still lending her smile and interest for the welfare of her thousands of doughboy friends. She is shown here with Captain R. B. Woman Asks Court Employes To Hunt For License Issued In 1757

(International News Service)

LANCASTER, Pa., May 5.—A marriage license issued in 1757 to Robert Jackson today was the object of a search being conducted by clerks in the marriage bureau here.

A request seeking information regarding a license issued in that year was sent to the bureau by Miss E. M. Paull, of Blairsville. Clerks said that they doubted that such a license could be found since the law requiring a license to be issued was not passed until 128 years later.

Oklahoma Aviator Seeks Record In Endurance Flight

(International News Service)

CHICKASHA, Okla., May 5.—Joe Hart, Oklahoma aviator, and R. L. Human, Grady county farmer, were out for another "endurance grind" today. Hart, who four times has failed to remain aloft in an effort to capture the world's record for sustained airplane flight, took off at 9:38 o'clock today on another trial. Human, champion ploughman of the southwest, set his mules down a furrow which he says he will hold as long as Hart remains aloft.

Hart and Human gave up an attempt on Wednesday after eight hours when Hart's plane failed to function perfectly and weather grew too thick for sustained flight.

Approve Pitt Plan To Train Teachers Physical Work

(International News Service)

HARRISBURG, May 5.—The state council of education today announced its approval of the application of the University of Pittsburgh to conduct a teacher preparatory course in health and physical education.

Final action on the proposal of the University of Pittsburgh to establish a Junior college at Uniontown will not be taken until the June session. Tentative plans for the move were considered at the session here.

Sites for four consolidated schools also have been approved, it was announced. They included Anwell township, Washington county and Middlesex township, Butler county.

Woman Bomber Is Newest In Chicago

Woman Seen To Carry Package Containing Bomb, Blast Follows

(International News Service)

CHICAGO, May 5—A woman bomber made her appearance in Chicago today.

Two policemen, a block away, observed a woman and two men dart from a parked automobile, saw the woman carry a small black object to the front of a barber shop and rush back into the car.

A moment later there was a terrific detonation. The automobile sped away as police fired shots after it.

Labor trouble was blamed for the blast.

Roumanian Police Kill Six Persons In Forbidden March

(International News Service)

BERLIN, May 5.—Six persons were killed and several wounded in a clash at Turoza, Roumania, between police and members of the Peasant party who were enroute to Alba Julia to attend a conference of the National-Peasant parties, said a Central Radio dispatch from Burcharest this afternoon. A later report, however, said that 50 persons had been wounded, but that it was unknown if any had been killed.

Sixteen Roumanian government airplanes scattered pamphlets over different parts of Transylvania, warning the people against attending the conference. In spite of this, the attendance is expected to reach 200,000.

(International News Service)

WASHINGTON, May 5.—The House and Senate conferees decided today to hold up the report on the Jones-Reid flood control bill while an effort is made over the week-end to meet President Coolidge's objections to the measure.

The conferees will go to the White House Monday to consider changes suggested by the president.

Mr. Coolidge was nettled because the conferees did not consult him before preparing a report, and has three times intimated he would veto the bill in its present form.

Tear Gas Bombs Are Demonstrated At Police Station

Police Officers Get Actual Idea Of What Tear Gas Will Do

There was hardly a dry eye around police station Saturday at noon. Tears were as common as police badges, and strong virile men came away from the building with the tears cascading down their chin.

The reason for all the lachrymose display was a tear gas demonstration which was being put on by agents for the commodity which is guaranteed to stop hold up men, bank robbers, book agents or saxophone players.

There were several demonstrations. One was in the city terasurer's office and showed how a tear gas bomb could be set off if a hold up man stuck up the office. Another was in the detective's room, the agent using what appeared to be a blackjack but was in reality a container of tear gas. After the cartridge was fired the instrument could be used as a black jack.

Another handy little toy he had was what appeared to be a fountain pen but was also a tear gas gun. This was made for newspaper men who cover crime. It would come in handy also to use on a sob story one might write.

But whatever, and however, the tear gas demonstration was all wet, at least the faces of the victims were. From the agent's standpoint the demonstration appeared to be a success. Anybody who could withstand that tear gas could argue with his mother-in-law.

Salo Is First Into Chicago In Pyle Derby

(BULLETIN)
(International News Service)

CHICAGO, May 5.—John Salo, Passaic, N. J., led the bunion derbyists into the sixty-third control at the First Regiment Armory here this afternoon after covering the 43.2 miles from Joliet in 5 hours, 5 minutes and 7 seconds.

Salo, who is third in the race standing has covered the 2402.3 miles from Los Angeles in the elapsed time of 425:53:46. Salo was fresh after the sprint through heavy traffic down Michigan Boulevard during which he averaged almost 9 miles per hour. He is 34 and the father of two children.

Thousands lined the curbs to watch the derbyists arrive here. It was necessary to call out police reserves to keep back the crowds.

Nationalists In China Protest On Japan's Invasion

Nationalists Officials Send Note Accusing Japanese Of Hostilities

MANY HOMES ARE REPORTED BURNED

Estimate About 90 Foreigners In Tsinan District Exclusive Of Japanese

(International News Service)

SHANGHAI, May 5.—The Chinese Nationalist government today sent a note to Premier Tanaka, of Japan, accusing the Japanese of responsibility for the hostilities at Tsinan (Tsinanfu), capital of Shantung province.

The note alleges that Japanese murdered the Nationalist commissioner at Tsinan and 10 of his assistants, raided the Nationalist Foreign Affairs bureau at Tsinan and set it on fire.

The communication protests against the despatch of Japanese troops to Tsinan.

It is reliably reported that another violent outbreak of fighting between Chinese and Japanese developed at Tsinan at 8 o'clock last night (Chinese time).

Homes Are Fired

During heavy cannonading a large section of the commercial district was destroyed. Hundreds of houses were set on fire and destroyed.

The Japanese casualties were put at 300, including soldiers and civilians.

Nationalist headquarters claim that 1,1000 Chinese have been killed in the Tsinan area and 1,000 wounded, including soldiers, government officials and civilians.

General Feng Yu Hsiang, formerly known as the "Christian general," whose army is now fighting with the Nationalists under Gen. Chiang Kai Shek, has arrived at Tsinan, leading observers to believe that even more serious trouble looms there.

Local officials of the Standard Oil company of New York are anxious over the fate of the Americans employed by the company at Tsinan. No word has been received from them since Monday.

According to the American Presbyterian Mission four men and five women were in the Tsinan district when fighting broke out between the Chinese and Japanese.

The total number of foreigners in the Tsinan zone, exclusive of Japanese, was estimated at 90.

All blues are self-made. Every human being would be miserable if he'd let his thoughts dwell on the fix he is in.

In the absence of Rev. Buckingham of the Primitive Methodist Church, the pulpit will be filled by Miss Jane Bradford, Morning and Evening.

With the approach of the vacation season, thousands of motorists are planning automobile tours to the seashore, lakes and over mountains. Drivers should remember there are approximately a million motor vehicle operators who shouldn't be trusted even with bicycles and therefore should govern themselves accordingly. Even while rounding a curve on an apparently deserted lonely mountain, you may meet a fool who assumes he alone is on the highway and is trying to imitate a racer, so remember always to have your car under complete control and be alert to possible hazards.

PETER'S ADVENTURES IN ANIMAL LAND
BY MRS FLORENCE SMITH VINCENT

Time for Breakfast

Father Swift was the first to notice Peter's silence. Being a curious bird he said: "A penny for your thoughts, boy!"

"Why do you call yourselves Swifts?" asked Peter. "I always thought you were Swallows."

"No, sir, we are not, and what is more, we are only distant relatives of the Swallows, although every one says we do resemble them more than our first cousins, the Nighthawks and the Whip-poor-wills. You might not believe it, but the Humming-birds are our cousins, too. We like the Swallows, though, and get along with them first rate."

The boy scarcely heard what Father Swift was saying. He was watching the fellow clinging to the side of the chimney. Father Swift didn't seem to be using his feet at all.

"How do you hang on?" asked Peter curiously. Swift proudly raised his head.

"I use the quills of my tail as a brace, putting them together so," replied the bird, showing Peter as best he could. "My feet are too weak to be of much use, but I don't need them, for my tail is the handiest thing in the world and my wings are so strong that when I am in the air

MR. SWIFT WAS CLINGING TO THE SIDES OF THE CHIMNEY—HE DIDN'T SEEM TO BE USING HIS FEET AT ALL

I seldom perch to rest, but fly all the time. No bird that I know can outsail me. You should see me dive down this chimney. I fold my wings at my sides, as close as can be, and down I come, straight as a string. When I fly out, "whrr" go my wings and up I soar."

"I have often heard that noise, but never knew what it was," Peter was deeply interested, but before he could say more Chirpy began to whimper:

"Oh, dear me, how hungry I am!" and four nestlings joined him.

"I am afraid you will have to excuse us, boy," said Mother Swift anxiously. "When the children begin to act like that it means we must get them something to eat quickly without another word."

"Whrr!" Out of the chimney flew Mr. and Mrs. Swift. Chirpy and his brothers and sisters paid no more attention to their visitors. They did nothing but open wide their mouths and cry for food. So slowly the boy began his downward climb. Short as it had been, he was very glad that he had paid a visit to the Chimney Swifts.

Seniors Receive Trophy For Inter Class Track Meet

ELLWOOD CITY, May 5.—Athletic teams of the freshman, sophomore, junior and senior classes of the high school participated in the track meet yesterday afternoon which was sponsored by the local order of Elks.

The meet took place on the athletic field and relays, heats, broad-jumping and many other athletic feats of prowess were in evidence. The bleachers were thronged with admiring spectators and the inter-class track meet went on through the interesting steps to the grand finale when the senior class representatives received the trophy for the most number of points.

Attorney Maurice Kraus presented the trophy, which was accepted on behalf of the class by Jim MacMurdo, star of that contingent. The entire meet was well staged, and very interesting to witness.

W. B. A. Members To Attend Conference

ELLWOOD CITY, May 5.—At the regular meeting of the W. B. A. Friday afternoon in the Knights of Fythias hall plans were made to attend the district convention in New Castle on May 18, afternoon and evening, at the Elks Club. The local order will take a large class to be initiated.

Bina M. West, founder of the order, will be a special guest at the banquet, which takes place at six o'clock.

On May 11 a special meeting will take place at the home of Mrs. Coral Emery at 714 Crescent avenue to further plans for the convention. The meeting will be followed by a social period and cards.

INFANT DIES AFTER BRIEF ILLNESS

ELLWOOD CITY, May 5.—Little Bobby Adler 14 months old son of Mr. and Mrs. Robert Adler of Knox Stop died yesterday in the local hospital after a brief illness.

Funeral services will take place May 7 from the St. Agatha church. Burial will be made in a New Castle cemetery.

Pupils Apprentices

Miss Ethel Traphagen

The pupils in dress design, who are taught by Miss Ethel Traphagen, of New York, study fabrics as well as line. She advocates the old world apprenticeship idea, and carries it out in her work at the women's art school of Cooper's Union, at her own fashion school and in the New York Evening School of Industrial Art.

Maine-Williams Nuptials Known

ELLWOOD CITY, May 5.—Miss Myrtle Main of this city became the bride of Earl Williams of State street New Castle, Friday morning at 11:30.

The ceremony was a quiet one the young couple merely visiting the parsonage of the First Christian church where Rev. C. C. Huffer performed the ceremony.

The bride was attired in a traveling ensemble and wore a corsage of roses. Mr. and Mrs. Williams are at present on a post-nuptial trip and will be at home to their friends later in New Castle.

ATTENTION, GIRL SCOUTS

ELLWOOD CITY, May 5.—Every Girl Scout enrolled in the local troop is asked particularly to be present at her troop meeting Monday evening for important information regarding the Girl Scout work in connection with the Community Chest drive here.

Parents Present Local Pastor With Handsome Gift

Statistical Report Of Children's Hour Meetings For Past Four Years Given

ELLWOOD CITY, May 5.—Two hundred and eighteen children attended the final children's hour service in the Baptist church Friday evening. As a farewell to Rev. and Mrs. MacGeorge for their work with the children here a gift of a walnut telephone stand and chair was made, with Rev. A. M. Stevenson of the Presbyterian church making the presentation speech. Malcolm and Leona MacGeorge were each presented a box of candy.

Rev. MacGeorge made a short speech of thanks and wishes to express his appreciation to all the parents of the children, as well as the children themselves, for their co-operation in his efforts for the children's hour during the past four years.

The program last night included selections from the K. of P. Mandolin Club, a clarinet solo by Frank Humphrey and the usual object lesson and movies by Rev. MacGeorge.

One hundred and thirty children received gifts of award for perfect attendance during the last quarter, or three months. A financial report of the children's hour meetings since their inception is presented by Rev. MacGeorge:

Total number of meetings	92
Total attendance	17,279
Total receipts	$1,292.53
Total expenditures	$1,260.77

The balance in the treasury will be given to the trustees of the First Baptist church who have furnished the rooms, light and heat without charge during the past four years.

Miss Eleanor Cox Is Club Hostess

ELLWOOD CITY, April 5.—"The Trump It" bridge club, a sub-deb organization, was entertained Friday evening at the home of Miss Eleanor Coz on Fountain avenue. Four tables of bridge were in play and special guests present were Misses Cora Lindgren, Ellen VanGorder, Beulah Snare, Eeulah Hertzog and Mrs. Bill Evans.

After a pleasant evening high score awards for the guests went to Mrs. Evans and Miss VanGorder. The club honors went to Miss Mary Jane Thompson and Miss Marie McKim. Later the hostess, assisted by Mrs. Herman Wilson and Mrs. C. R. O'Neil, served light refreshments. In two weeks Miss McKim will entertain.

School Term Ends With Big Picnic

ELLWOOD CITY, May 5.—School term at the Wurtemburg consolidated school closed on Friday, May 4 with a picnic for the scholars and patrons, over 200 being in attendance.

The first year of the school as a consolidated school was quite successful and the board of school directors have decided to add another room making four rooms in the school. Miss Mary Young has been elected to teach the third room. The other three teachers were re-elected for the next year. They are Miss Ruth Mehard, Miss Luella Moorehead and Miss Murl McConnell.

After the picnic the program consisted of various games and races with prizes given to the winners.

IMPROVING

ELLWOOD CITY, May 5.—Miss Lillian, daughter of Mr. and Mrs. William Haswell of Line avenue, is reported as improving from a week's illness.

STORK NEWS

Police Confiscate Car And Liquor In Morning Arrest Here

Bootlegger Pleads Guilty To Charges Of Transporting And Possessing Moonshine

ELLWOOD CITY, May 5.—Carmine Coscoretti, Beaver Falls, is in the Lawrence county jail in New Castle, and the county has one more confiscated car to sell, as the result of an early morning arrest by the local police.

At a hearing before Squire S. Y. Douds today, Coscoretti pleaded guilty to the charges of transporting and possessing moonshine liquor, preferred by the local department, and in default of $1500 bail was committed to the New Castle jail for the June term of court.

Coscoretti was arrested on Wampum avenue with a load of moonshine that was to be delivered in Ellwood City. He was driving a sedan, rented for the purpose from an agency in Rochester, Pa. Lieut. H. J. Chases is of the opinion that the capture of the moonshine will cut down the supply of liquor that has been retailed in Ellwood City.

The arresting party consisted of the local night police assisted by State Trooper Richards of New Brighton and Constable Elmer Frishkorn. The car and its contents were taken to New Castle and turned over to the sheriff of Lawrence county.

Dr. W. A. Womer At Conference In Kansas City, Mo

BRAKES cause accidents or prevent them

—which kind are yours?

It only takes one skid—one emergency in which brakes fail to hold—to cause an accident. It might be slight—perhaps a jammed fender—and it might cost a life. Why gamble with chance? Brakes, out of balance or not equalized will cause a car to skid to the right or left. Four-wheel brakes—when out of adjustment—add no more to your ability to stop than two-wheel brakes. Your car is only as safe as its brakes. Keep them in perfect adjustment.

We have installed a new JUMBO Giant Brake Tester that scientifically tests two or four-wheel brakes. Use our accurate test every 1500 miles. If adjustments are needed we will make them quickly—at a very reasonable charge.

See For Yourself

Right before your eyes—on accurate hydraulic gauges—the JUMBO Brake Tester reveals the true condition of the brake on each wheel. Eliminates all chance for human error—no guesswork. Assures positive equalization and perfect balance of brakes—maximum braking efficiency—"guaranteed safety!"

Expect Passage Of Marine Bill In House Today

Jones-White Measure Provides Extensive Government Aid To Private Concerns

LITTLE OPPOSITION TO MEASURE SEEN

(International News Service)

WASHINGTON, May 5.—The Jones-White bill, providing extensive government aid for development of a private merchant marine, is expected to pass the House late today.

With one day of debate concluded in which no one spoke in opposition to the measure, the bill was to be taken up for amendment after disposal of the flood control conference report.

A score of speakers demanded steps be taken to restore America's prestige on the seas. It was the only time in the present session when no opposing voice has risen during debate.

A fight was expected, however, upon several amendments, including a proposal by Representative Wood (R) of Indiana, for interest-free government loans to be used in building new ships. This plan, he said, would equalize any difference between cost of constructing ships here and abroad.

The Jones-White bill, as presented to the House, provides for government loans at the same low rate at which the government borrows money, enrollment of all seamen in the naval reserve to equalize the wage cost to American and foreign ship owners and liberal mail contracts to aid in maintenance of ship lines to foreign countries.

Foster's Weather Prognostication

WASHINGTON, May 5.—A storm wave of moderate intensity of force is expected to cross continent during week centering on May 4; this storm center is expected to move down into central transcontinental storm path, increasing somewhat in force after passing 90th meridian and turning northeastward; this storm wave will be followed by a northern cold wave that will be expected to cause average temperatures of continent east of Rockies to be below normal during five-day period centering on 7; coldest weather of month will occur during this five-day period. Precipitation during this storm period will be about to a little above normal for the continent; heaviest precipitation will occur between longitudes 87 and 97 from Great Lakes to Gulf; least precipitation during this period will occur in western parts of sections 1, 3 and 5, western Great Central valleys and plains. The above distribution of precipitation is the same as for April forecasts and will be expected to hold through the month of May. Secondary evaporation point is now located due south, which will cause most precipitation on western and southern slopes and land approaching those slopes; Atlantic coast will continue to be an exception to this rule and while it is an eastern slope, will continue to receive about to a little above normal precipitation during May, due to conditions established in central Atlantic ocean and to influence that will continue to cause storms to increase in force after passing 90th meridian.

A storm wave of mild intensity will be expected to cross continent during week centering on May 10; the principal feature of this storm period will be the rapid rise in average temperatures during and after storm center; temperatures are expected to trend upward, relative to local normal temperatures, from 10 to end of May. Greatest storm force and heaviest precipitation of month will be expected to occur near May 15. While a general improvement in crop conditions are expected during last half of May, crop weather of the month is expected to average below normal east of Rockies. West of Rockies May crop weather will average better than normal.

A total eclipse of the sun will occur May 19, but, as the sun will be pretty far north and the moon pretty far south, as viewed from the earth on that date, eclipse will only be visible from Madagascar, southern Africa, southern South America and on to the south pole, at which latter place the eclipse will be total; not very favorable to investigators. Total eclipse of moon that will occur on June 3 will be more favorable to investigators. Total eclipse of moon that will occur on June 3 will be more favorable to study, but not so much in demand; this phenomena will be visible from western North and South Americas as a partial eclipse about four a. m. May 3, too early for everyone to see.

Senior Band To Play Wednesday At High School

As an effort to stir up enthusiasm for the Harrisburg musical contest, which will be held on Saturday, May 12th, and in order to give the students of the school, who were not present at the Grove City contest, an opportunity to hear the school's winning band and orchestra perform, LaVerne E. Irvine, director of music in the high schools of the city and who was in charge of arrangements in the last contest, has arranged for a special musical program to be presented in the auditorium at the school's chapel exercises next Wednesday.

Prof. F. L. Orth, principal of the school, declares that the two organizations will present the same numbers that were played at Grove City. In this group is the famous selection, entitled, "Finlandia," which will be played by the band.

Children love Laxa Ginger Snaps
Laxa Ginger Snaps are a gentle yet effective aid to a "return to normal" condition of the bowels; you can safely give them to your children; they will relish them, and are likely to eat them all if they have free access to the box, but should they do so, it will not harm them, as this has been proven.
The Laxa Ginger Snap is a pure food which contains an ingredient which regulates the action of the bowels, they do not purge, hence it is sometimes necessary to eat three or four daily for several days, then reduce the amount according to your own judgment.

Elect Editors For College Annual

Staff Is Named For "The Argo" By Members Of Class Of 1930 Friday

(Special To The News)

NEW WILMINGTON, May 5.—Very close balloting featured the election of the staff of the 1930 Westminster year book, The Argo, here yesterday afternoon with Eric Goezinger of Philadelphia winning the position of editor-in-chief of the book.

The other three chief positions on the new staff, those of associate editor, business manager, and advertising manager, were awarded to Cora Williams of Cresson, James Littell of McDonald, and William Atwell of Butler respectively in the balloting done by the members of the class of '30.

Eight assistant editors were elected to the literary staff of the next year's annual. These students are: Wilson Botsford of Pittsburgh, Ruth Lewis of New Castle, Jane Macrum of Oakmont, Margaret Brickley of Cresson, Margaret Reed of Butler, Katherine McClure of Blairsville, Mary Hastings of Bradford, and Eleanor Graham of Pittsburgh.

Members of the new art staff are: Katherine Boobyer of Pittsburgh, Elizabeth Ralston of Wilkinsburg, and David Wallace of Rockville Center, L. I. Assisting the new business manager there will be Harry Welsh of Homestead and John Strothard of Ashtabula, Ohio. Kenneth Dyer of Pittsburgh and Chester McLean of Turtle Creek were elected as assistant advertising managers.

Literary Program At Liberty Grange

Mixed Program Of Music And Features Entertainment Of Evening

At the regular meeting of Liberty grange, those having their birthdays the first four months of the year furnished the literary program, which is as follows:

Music by grange.
Reading—William Stoner.
Recitation—Ruth Walton.
Music—Mrs. Mabel McElwain.
Newspaper—Audley Locke.
Pantomime, "The Bridal Scene."
Vocal duet—Mrs. Pearl McCracken and Mrs. Martha Baker.
Reading—Mrs. Belle Stoner.
Music—Mrs. Helen Cameron.
Music in charge of Ed Speer.

After the program all retired to the dining room where a delicious lunch was served by the following committee: Mrs. Joseph McFarland, Mrs. Joseph Burton and Mrs. A. G. Skunder. The table was decorated with pink and white roses. A large birthday cake with 42 candles formed the centerpiece, which represented the number having a birthday in the first four months of the year.

The next regular meeting will be held Tuesday evening, May 15. In place of the literary hour a memorial service will be given in charge of the worthy chaplain in honor of the deceased members of the past year.

Newsboys Must Not Litter Streets

Complaints have been registered with the police department from various parts of the city, in recent weeks, concerning the practice of boys selling Sunday newspapers taking the wrappings from their papers at various street corners, where they are left for them and failing to gather up and remove these wrappings. The result has been that the wrappings have been blown all over the various districts, causing a very nasty appearance and much annoyance to the residents.

Chief of Police C. C. Horner issued instructions today that an officer visit all sections of the city Sunday, where papers are handled in this manner and notify the boys that unless the paper is gathered up and taken away, they will be subject to arrest.

Circulation Rises At Branch Library

Over 600 Books Are Taken From South Side Branch Library Friday

"Six hundred and thirty-five books were given out at the South Side branch of the library Friday afternoon and evening and I am sure that we could have used 635 more," declares Miss Alice M. Sterling, librarian of the New Castle Public Library.

That the lack of a sufficient number of books is one of the worst things about the branch is the contention of Miss Sterling. Many remedies have been suggested, like that of stamping the books for only one week, but she feels that nothing will satisfy like books. Then the plea is often heard, "These books are too hard for me."

At this time the library wishes to thank Tela Haddad for the work he has been doing in assisting the librarians at the branch.

The winners are, Miss Ruth McCombs, of the senior class; Miss Krana Sherman, of the junior class and Miss Helen Brown, of the sophomore class.

Miss Beerbower Is Salutatorian

Honor Roll For New Wilmington High School Is Announced

(Special To The News)

NEW WILMINGTON, May 5. — Because of an error made in the computation of the last semester's grades the recently published list of the college town high school honor roll was not entirely correct. The corrected list shows Eleanor Beerbower to be salutatorian of the class.

As before the other students on the honor roll are: Louise Adams, Doris Goff, Dorothy Thompson, Helen McCormack, Eleanor Beerbower, and Kathryn McKlintock.

With two vacancies still open in the teaching staff of the local high school, the New Wilmington school board will meet in its regular monthly meeting Monday night and will probably act on application for the two positions.

Commencement plans for New Wilmington high school began here yesterday with the announcement of the Class Day Program Committee by the officers of the senior class.

The position as chairman of the committee was given to Eleanor Beerbower, and the other members of the committee are: Walker Brownlee, Margaret Reese, and David Maxwell. The work of this committee will consist in the arrangement of the whole class day program.

Hagenbeck-Wallace Circus Here May 16

Annually the Hagenbeck-Wallace circus pays a visit to this territory. It will only be a short time until that famous show comes to New Castle for afternoon and night performances. Highly colored posters proclaim it's visit on May 16 and already the circus atmosphere is in the air.

The name Hagenbeck-Wallace is a household word throughout the United States, the result of years and years of offering the best in circus entertainment. New features are being constantly added and the show is maintained on an expensive scale, which has brought about Hagenbeck-Wallace being known as the "highest class circus on earth."

The 1928 edition will be found to contain all the best in educational and clean amusement. Capacity crowds are expected to attend the exhibitions in this city, and with this in mind the management has arranged for a downtown ticket sale to be conducted at Love & Megown's on the day of the show, where you may secure your general admission or reserves at the same prices as on the show grounds. Yes, and one of the largest film producers has made arrangements to have "shots" made of the crowd and a screening will be had at the Penn theatre.

Spanish Aviators Postpone Flight Due To Weather

Projected Long Distance Hop To Cuba By Spanish Fliers Is Halted By Weather

(International News Service)

SEVILLE, Spain, May 5.—Because of unfavorable weather, the Spanish aviators, Jiminez and Iglesias, today postponed indefinitely the start of their attempt to break the long distance flight record.

Despite the flowers' denial that they intended to fly to Havana, rumors persisted that they would undertake the flight to Cuba. It is believed that they wanted to fly to Havana but were forbidden to undertake the hazardous flight over the Atlantic by the government. It is believed the government recommended a flight to Karachi, India, instead.

Mr. and Mrs. White Return From Winter Spent In Florida

Mr. and Mrs. W. M. White of East North street, have returned from Sebring, Fla., where they spent the past winter. Sebring is a town of about 6,000 population, located 125 miles from Orlando. It was exploited during the Florida boom and has enough streets laid out and sidewalked to make a town of one hundred thousand population.

Mr. White spent much of his time fishing. Fish are plentiful in nearly all of the little lakes and are of a fine quality.

During his absence Mr. White kept in touch with what was going on in New Castle through the News. He received it regularly, not missing a single copy until the date of the election here, when his subscription expired.

Both Mr. and Mrs. White were much improved in health during their stay in Florida.

Two Are Drowned, Twelve Missing As Vessels Collide

Greek Steamer Is Sent To Bottom, British Ship Damaged, But Makes Port

(International News Service)

LONDON, May 5.—Badly battered following her collision with the Greek steamship Ioannis Fafalios in the English Channel, the British naval supply ship Bacchus floated safely at anchor off Portland, Doretshire, today, while naval officials attempted to ascertain the extent of her damage.

Two of the crew of the Greek ship died after being picked up by the crew of the Bacchus. Twelve others are missing and are believed to have been drowned. The remaining eight of the crew of 22 were rescued.

The two ships collided about 30 miles east of Portland. For a time it seemed as though the Bacchus would also sink. After rescuing as many of the crew of the Greek ship as they could, the Bacchus's crew also took to their boats.

When it appeared, however, that the Bacchus was able to keep afloat, the crew again boarded the vessel. It limped slowly towards Portland, stern first, and was towed into port by several tugs and the battle cruiser Tiger.

The Greek ship had a registry of 1,998 tons. The Bacchus is a 4,500-ton vessel.

State Deer Hunters Are In Quandry Over New Commission Law

Deer Hunters Ponder Over Prospect Of Joining Doe Slayers' Association

Killing Of Bucks This Season Subject To Fine Of $100, Commission Rules

(International News Service)

HARRISBURG, May 5.—Pennsylvania deer hunters who had been looking forward to the season next fall to get a coveted antlered head today are pondering whether or not they will join the doe slayers to whom the state game commission has given its official sanction.

In a schedule announced last night the commission opened the entire state to the killing of does from December 1 to 15 and placed a fine of $100 for killing of bucks.

At the same time the commission announced changes in practically all existing small game seasons, lengthening the legal period but restricting hunters to Thursday, Friday and Saturday of each week. Despite increasing scarcity of bear, the same plan was announced for that animal. When the season permitted six-day hunting last year, 65 hunters were killed.

Announcement of the new rulings followed a publicity campaign by the commission in which deer were pictured as starving to death after unsuccessful efforts to climb trees in search of food.

Regular open seasons for the killing of bucks have existed since 1907. Killing of does previously carried a fine of $100. Recently the commission has declared short open seasons for shooting does in counties where they had become too plentiful.

Open seasons as fixed by the commission include:

Ruffed grouse, quail and squirrels—October 15 to November 30, Thursdays, Fridays and Saturdays only.

Rabbits and hares—October 15 to December 1, three days each week and six days from December 1 to 15.

Charge Official Of Insane Asylum With Man's Death

Claim Restraining Methods Used By Warren Hospital Official Caused Death

(International News Service)

WARREN, Pa., May 5.—Charged with having caused the death of Elvin Roberts, 40, of Coudersport, a patient at the State hospital, North Warren, by employing unwise restraining methods when the patient became violent, Herbert Johnson, 32 of Jamestown, an attendant, was arraigned before a justice here today.

Roberts came to his death from exhaustion resulting from his weakened condition and the methods used in quieting him, according to the findings of the coroner's jury. Clifford Delp of Clarington, assistant, held as a material witness, testified at the inquest that Johnson had placed a towel around Roberts neck to hold him in bed when he became unruly. While the towel was twisted, the pressure was light, he said.

The restraining methods employed were contrary to the established customs of the institution, the jury found.

Testimony revealed that Roberts, who was admitted to the hospital May 1, became violent and attendants had difficulty in quieting him.

Unable to secure $5,000 bail Delp was held in the jail here.

Officials Approve Good Roads Program

Highway From Clark's Mills To Sandy Lake Heads List For Improvement

MERCER, Pa., May 5.—County Commissioners Harry Hunter, Harry Gibson and W. A. Bone returned at noon Thursday from Harrisburg, where they held a conference Wednesday with State Highway Commissioner James L. Stuart in reference to the departments attitude towards construction work in Mercer county.

The program recently adopted by the commissioners and Good Roads committee was approved by the department and the roads will be built in the order designated in the program adopted, which places the road from Clark's Mills to Sandy Lake at the head of the list.

Just when the department will be ready to take up work on any of the projects it is not prepared to state but the Mercer county officials were assured that it would be as soon as possible.

The money to meet the state's allocation will be met by a loan until the bond issue is submitted to the people.

Intrepid Trans-Atlantic Fliers To Take Flyer At Famous Race Track Today

MORE RECEPTIONS AWAIT AVIATORS

Money Bestowed On Baron von Huenefeld Is Given In Turn To Dr. Hugo Junkers

(International News Service)

NEW YORK, May 5.—The Bremen flyers will take a flyer or two on the horses this afternoon at the Jamaica race track.

Baron Ehrenfried Gunther Von Huenefeld, Major James C. Fitzmaurice and Captain Hermann Koehl have been bidden to seats of honor at the Long Island oval and told they can play long shots or "sure things," which ever strikes their fancy.

The third race has been dubbed the Bremen fliers' handicap by the roar of stewards.

This evening the Atlantic conquistadores are to be guests at the dinner by the city to Prince Potenziani, governor of Rome.

Tomorrow the three are to attend church, then journey to Yankee Stadium in hope of seeing Babe Ruth tap the ball for a non-stop flight over one of the garden fences.

More Receptions.

From the diamond pastime they are scheduled to be feted at the German club, then attend a dinner of the Catholic club and a reception at the United Singers' Society clubrooms in Brooklyn.

Baron Von Huenefeld presented a gift purse of $12,500 to Miss Herta Junkers with a request she give it to her father, Dr. Hugo Junkers, builder of the Bremen, when he arrives here Monday from Germany.

The money was bestowed by A. L. Wenner-Gren of Stockholm, director of the Electrolux Company, of Sweden. It was presented at a banquet in the Ritz-Carlton attended by representatives of thirty nations.

Wenner-Gren offered it as a prize more than a year ago for the first west-to-east flight of the Atlantic.

Student Council Unable To Agree

(Special To The News)

NEW WILMINGTON, May 5.—Meeting yesterday morning, the newly elected Student Council Committee of Westminster was able to agree on only one of its own officers, the vote the president and secretary being deadlocked five times. Robert Furst of New Castle was elected treasurer of the organization.

Another meeting is scheduled for Monday morning in which it is expected that the council will agree on one of its members for both the presidential and secretarial positions.

Peairs Declares Provision To Be Made For Children

Says Music Association Plans To Continue Educational Concerts For School Children

That part of the program of the newly organized Civic Music association which will pertain to the school children of New Castle was outlined today by Herbert Peairs, president of the association and manager of the Scottish Rite Cathedral.

"While committees have not worked out the program of the successor to the Educational Arts society, yet I feel sure that every booster of the new association feels sure that the work of Prof. LaVerne Irvine and Frank Burton must continue. These two men have done much to bring good music to the school children and the Civic Music committee association will do its best to keep up the good work. I am sure that everyone feels that bringing music to the school children is the most fundamental work of the new association. They are the coming generation and it is only their right that they be given the best.

"What plan we will use I am not sure. Perhaps concerts will be continued in the high school auditorium and again, the association may issue season student tickets to the regular concerts at a very small cost. But whatever the plan, under the new association, children will have the same privileges as when the Educational Arts society directed the concerts."

Nominees For Girl Reserves

Nominees for the various offices of the Girl Reserves organization of the New Castle senior high school for which an election of officers will be held at the Y. W. C. A. on Wednesday May 9 at 4 p. m., were announced yesterday and are as follows:

For president, Arabella Cobau and Genevra Hazen; vice president, Janet Brenneman and Dorothy Long; secretary, Charlotte Barlett and Clarissa Duff and treasurer, Lenora Beall and Eleanor Magill.

New Pipe Organ To Be Dedicated

Notable Program At St. Philip And James Church On Sunday

SPECIAL CHOIR MUSIC FEATURE

Sunday, May 6, will be a memorable one in the history of St. Philip and James church, located at the corner of Hanna and Chartes streets. Not only will the Feast Day of the Parish be observed, but the splendid new pipe organ, recently installed in the church, will be dedicated, with Miss M. Dutkiewicz at the console.

The Feast Day celebration, honoring the patron saints of the church is always an impressive one, but this year it will be much enhanced by the organ recital. The instrument is a two manual one, of Moeller construction, has 22 stops and cost $5,000.00.

Special Choir Music

As a special feature of the evening service, when the organ will be dedicated, two choirs will sing, an adult choir of 20 voices, and a childrens' choir of 50 voices. The music which has been arranged for the program, is symbolic of the spirit of the Catholic chu:), and thorough rehearsal during the past weeks has brought the choirs up to a standard of quality that will surprise those present Sunday evening.

Rev. V. V. Stancelewski, pastor of St. Philip and James church, has arranged to have a number of visiting priests to assist in the program of the day, and has asked Rev. M. Kozlowski, of Mt. Pleasant, Pa., to deliver the organ dedicatory sermon. The regular services will be conducted by Rev. M. Drelak as Celebrant, Rev. C. Zielinski, as Deacon, and Rev. S. Kupiec, as sub-Deacon. There will also be a number of visiting clergyment present.

Dedicatory Program

The dedicatory recital program, which has been arranged by Miss M. Dutkiewicz, organist and choir director, following:

Prelude, Batterman—Miss Dutkiewicz.

"O Salutaris Hostia", Bruno Klein—A reverend number sung by entire chorus.

Solemn Vespers, Vatican Version—Children's choir alternating with adults.

Trio, "Gloria Patria,"—Mary Melcer, Mary Dudek, Joseph Garogewski.

"Ave Maris Stella", Gluck—Adult and children's chorus.

Regina Coeli, Jacques Battmann—A joyful hymn of Paschal time. The theme is carried by the tenors and boy sopranos and altos.

Veni Sancte Spiritus, Hanna—Solo parts by Mary Melcer and Joseph Garczewski.

Tantum Ergo, Franz Schubert—An inspiring composition of a great composer. The adult choir.

Following the dedicatory services, the following group of organ solos will by given by Miss M. Dutkiewicz.

Jubilate Deo, Silver.

Prelude and Fugue in C major—J. S. Bach.

Mazur—Namyslowski. A Polish folk dance.

Selection of Polish songs and dances. Both the above numbers arranged for the organ by Miss M. Dutkiewicz.

Polish national hymn—Congregation.

American national anthem—by the congregation.

The adult choir is composed of the following: Mary Melcer, Opolonia Golba, Anna Golba, Cecelia Dudek, Mary Dudek, Helen Pszenny, Mary Kurdupski, Mary Walukiewicz, SophieLudwiczak, Josephine Golba, Stefania Melcer, Stanley Dlugokeck, Joseph Garczwski, Frank Golba, Adam Pszenny, Andrew Biedka, Walter Dabek.

Slugger Of Taxi Driver Admits He Committed Crime

Man Arrested Near New Castle Has Hearing At Butler

BUTLER, Pa., May 5.—Andrew Slike, alias Joseph L. Brown, who on Wednesday slugged John Sullivan, Oakmont taxi driver, and robbed him of $6, was arraigned before Alderman George R. Kearns yesterday afternoon. Slike had hired a taxicab driven by Sullivan at Oakmont and drove to Butler. Later he forced Sullivan to drive to a point on the New Castle road, where he slugged the driver and stole the taxicab.

Quick work by the state police stopped the fugitive at New Castle when a state policeman arrested him. Slike yesterday afternoon entered a plea of guilty to all three charges made against him—larceny of an automobile, aggravated assault and battery and robbery. He also stated that he would enter court for sentence Saturday morning before Judge John R. Henninger after he had been told that he would be held under $5,000 bail.

Slike is about 28 years of age and yesterday was attired in a light suit which was evidently new, and wore a light cap.

When questioned yesterday relative to the bolt with which he beat Sullivan the prisoner said, "I bought it at Oakmont for a quarter."

"What did you buy a thing like that for?" he was asked.

"Just for what I used it for, you know what that was," came the answer.

"Did you have a gun?"

"No, I never use a gun," said Slike.

In the pockets of the man were found several parole papers from various institutions, the latest being from the Ohio state reformatory at Mansfield, O., where Slike was locked up under the name of Joseph L. Brown. Asked if that were his real name, he said it was not, but it was the one he gave to the Ohio authorities. His conviction in Ohio and his sentence to the Mansfield reformatory followed a highway robbery in Columbus, O., where his victim was said to have also been beaten badly.

The most baffling of all mystery plays is where she leads a spade after trumping them on two previous occasions.

Well, men have their favorite manicurists. Why shouldn't women have their favorite barbers?

Rev. Pearson To Preach On Sentiment Sunday Morning

Tomorow morning in Trinity church at the corner of North Mill and East Falls streets at the 11 o'clock service the rector will preach on "Sentimentalism. Does it help or hinder the cause of Christianity?" On the following Sunday at the same hour, being Mother's Day the second of the series will be delivered on "Love."

What is the sentiment? What is its place in life as we find it today? What is its value? How did Christ view it? Therefore how should those who try to follow Him speak and act? These are some of the topics which the rector, Rev. Philip C. Pearson will treat of in his sermon tomorrow morning. The aim will be to go straight back to the New Testament for our information and see how what is found there applies to daily Christian living.

New can't fire all of those who pay for their jobs. Ambassadors aren't in his Department.

How To Achieve Beauty

By MME. HELENE RUBINSTEIN
Noted Beauty Expert

THE FRAME OF THE FACE

The contour lines are really the frame lines of the face. For beauty and youth they must be firm and clear, for on these lines depend the charm of a well defined profile, the youthfulness of a cameo-cut chin and jaw. All the loveliness that exists within this outline will be either flattered or minimized through the medium of these frame lines of your face. They are as important a part of beauty as the outline in Art.

Scolding and worrying are unpleasant and controllable traits and they disfigure the brow with lines and "bumps." bad temper and stubbornness will, in time, force your jaw into hard, dominant lines anything but feminine, and anything but lovely.

Nor are these the only things which affect the profile. Prominent physicians claim that fully nine-tenths of the jaw disfigurations we see in the world, the receding chins and the overdominant ones, the improperly shaped mouths, bulging, drooping of pouting, are to be blamed upon the improper care of the teeth, gums and jaws.

If you have a too prominent jaw, you may have passed the period in which correction may be easily and adequately made. But you can, if you understand the cause, see that your own daughter has the benefit and advantage of your mother's mistake.

A double chin is the curse of youth, and beginning at 25 a woman needs some scientific aid to keep her jaw line firm and clear cut. As a preventive measure a mild astringent jelly may be used, but if the contour line is already blurred and an unbeautiful double chin is visibly in evidence, you will have to use a muscle-tightening preparation to correct the sagging tissues. It is best to apply it slightly warm and pat well into chin and jaw with brisk slapping movements, using the back of your hand, until all of the astringent has been absorbed.

Nervous twitchings of mouth, nose and eyes, disfigure, through over-developing the muscles. Control your habitual expressions and you control the permanent lines of your face. Control your facial habits and you will probably effect a beneficial change in your profile lines. It is worth the trial, is it not?

In my next article I am going to talk about posture lines.

In the light of modern boxing methods, there are some who hold that David was able to put over the winning punch while Goliath was counting the gate.

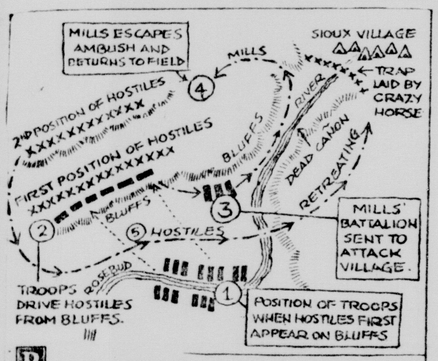
HIGH LIGHTS OF HISTORY

By J. Carroll Mansfield

The Battle Of The Rosebud

IN THE SPRING OF 1876, THREE COLUMNS OF UNITED STATES TROOPS LED BY GENERAL CROOK, TERRY AND GIBBONS WERE SENT AGAINST THE SIOUX. CROOK WAS THE FIRST TO TAKE THE FIELD. IN JUNE HE CROSSED THE TONGUE RIVER WITH A "FLYING COLUMN" OF CAVALRY AND MOUNTED INFANTRYMEN, LOOKING FOR THE BAND OF CHIEF CRAZY HORSE.

CRAZY HORSE, THROUGH HIS SCOUTS, KEPT WELL-INFORMED OF CROOK'S MOVEMENTS AND MANEUVERED HIS BAND LIKE A VETERAN COMMANDER. IN THE EARLY MORNING OF JUNE 17TH, HE STRUCK AT CROOK, WHO HAD HALTED ON THE BANKS OF THE ROSEBUD.



BOTH SIDES FOUGHT BRAVELY. ATTACKED AS THEY WERE RESTING IN THE VALLEY, THE TROOPERS CHARGED UP THE SLOPE AND DROVE THE INDIANS FROM THEIR POSITION ON THE HIGH BLUFFS BACK TO A SECOND RIDGE. AFTER TWO HOURS OF HARD FIGHTING, THE HOSTILES RETREATED TO THEIR VILLAGE.

THE OUTCOME OF THE BATTLE WAS A DRAW CRAZY HORSE HAD BEEN DRIVEN OFF, BUT CROOK HAD SUFFERED HEAVILY AND DID NOT PURSUE. THAT NIGHT, THE LATTER BIVOUACKED ON THE FIELD OF BATTLE, AND THE FOLLOWING DAY WITHDREW TO HIS BASE OF SUPPLIES ON GOOSE CREEK.

COEN TO PITCH OPENING GAME HERE

Ken Hogan To Pilot Team

Canton To Play New Castle In First Game At Centennial Field

McCULLOUGH TO PLAY IN OUTFIELD

Canton and New Castle are scheduled to open the O & P baseball league season at Centennial field this afternoon and according to Ken Hogan who will pilot the Centennials during the absence of Manager George Textor, Jewie Coen, a local hurler, will be assigned to slab duty while Sankey McCullough will grace one of the outfields. Canton's hurler has not been announced.

The clash today at 3:15 p. m. will be the second tilt between New Castle and Canton, the Centennials having won from the Buckeyes last Sunday at Massillon. During the week the Centennials held several practice sessions and Hogan, who will play in center field, are ready and fit for the opening contest.

The grounds are in good shape as Paul DiCerbo the groundkeeper has been working for a week. The diamond has been skinned and the bumps in the outfield have been rolled out. Probabilities are that a big crowd will welcome the return of the New Castle team to the field.

After today's game New Castle will journey to Massillon to play Akron.

LEESBURG WANTS BASEBALL GAMES

Only Best Teams Desired As Attraction Business Agent Says

Plans are under way at Leesburg for a big comeback in the baseball circles of Lawrence and Mercer counties and as the small town has banded together to support one of the best teams that has ever represented the town, prospects for some good games this year are bright.

It is not so many years ago that Leesburg was wont to secure a fast team, then step out and hire a high-priced battery for ball games, and as a result Leesburg became quite prominent in the diamond circles of the neighboring counties.

This year a strong team has been welded together and A. D. Stone has been secured to book games for the team. None but the best teams in Lawrence and Mercer counties need apply for games, which can be arranged by calling 17-1 Blacktown or writing A. D. Stone, R. F. D. 4, Volant.

Diamond Notes

The Clifton Flats team and the West Pittsburg Garlands, of the American section of the Lawrence County Twilight League played a seven-inning exhibition game on Friday night at Clifton Flats field. The Garlands defeated the Flats, 3 to 1. Butera and Brakey, on the knoll for the Garlands, allowed but three hits and fanned 12 men between them. Hiler pitched for the Flats and was found for five hits. The Garlands won the game by bunching hits in the fifth inning to score three runs.

The West Side Tigers defeated the West Side Panthers, 6 to 4, in a game played at the Lee avenue field. The Tigers led throughout the game. G. Burns was the batting star of the game, with a triple and single, and drove in the tying and winning runs. The playing of Habib in center field for the Tigers was a feature. Don Campbell, on the mound for the losers, pitched a nice brand of ball. The batteries were: Tigers, Ed. Burns pitch and G. Burns catch; Panthers, Campbell pitch and Roy Patton catch.

EUGENE F HARGRAVE

Eugene Franklin Hargrave, Cincinnati Nationals catcher, began his baseball career in 1911, joining the Terre Haute Central team was born at New Haven, Ind., July 15, 1892.

Hargrave began his professional baseball career at Terre Haute, Ind., in the Central league in 1911. Bubbles as he was called, stuck with the Terriers until 1913 when he was taken on by the Chicago Cubs in 1913.

Bubbles was sent to Kansas City in the American association in 1916 and to Memphis in the Southern in 1918. The same year St. Paul grabbed him and then sold him in 1921 to Cincinati for $10,000.

Hargrave's big league batting average is .313. He stands five feet, 11 inches high and weighs 170 pounds. He throws and bats right handed.

Ross And Gibson Open Fight Stable

Frankie Ross and Jimmy Gibson are going to attempt to revive the boxing game in the South Side. They have about a dozen canvas dancers at present, among whom are Young Tennessee, Tony Iacone, Mickie George, Young Fritz, all of whom have battle-scarred faces. Joe Slattery, a new comer from Windber, Pa., and a heavyweight, weighing 184 is one of their proteges. The gym where tne Ross and Gibson preside is located on East Division street, in the South Side.

TUNNEY TO FIGHT TWICE THIS YEAR DOPE ON HEAVYWEIGHTS INDICATES

By NORMAN E. BROWN
Staff Writer for Central Press and New Castle News.

It is hard to believe that Gene Tunney will appear in defense of his title but once this year—provided he turns back Tom Heeney.

There are various reasons for discounting this.

First of all is the early date of the international match—July. Were this match being staged Labor Day, or later, as was the second Dempsey-Tunney fight, it might well be accepted as the last heavyweight bout of the year.

Secondly, Tunney himself, being a student of the game and having a deeper insight into the responsibilities and problems revolving around his title, realizes more fully than the average fighter, the ruin which long layoffs bring. To pass up an opportunity to engage, in a second battle late in the fall means to sentence himself to a voluntary layoff of 12 months or longer.

Thirdly, a victory for Tunney (a decisive one) over Heeney should increase his popularity. He can accept another fight in September with a feeling of assurance that he can collect another big gate—as big a one as he could expect, perhaps, after a winter of tin canning.

And then there are other factors. The Sharkey-Delaney bout was staged with but one thought in view: producing something that might revive interest in one of these drawing cards.

Heeney was selected ahead of Risko, probably, in the thought that Risko would not "wither" in the next few months. In other words Heeney should be used while "hot" and a gate attraction.

If Tunney takes Risko as lightly as rumored there certainly should be no hesitancy on the part of the champion in taking him as soon as possible.

* * *

Gene Tunney, as heavyweight champion, is considered an oddity, as heavy kings go. And from the start of his reign he has been charged with lacking the "color" which has made other heavyweight rulers popular.

John L. Sullivan's personal love of conflict, his rough way of living and the glamour he carried over from the bare knuckle days to the modern era made him popular.

Jim Corbett's science, which virtually revolutionized the game, and his dashing speed in the ring, coupled with his gentlemanly bearing outside, won him popularity—produced his "color".

Bob Fitzsimmons' freckled body, his courage against a field of great fighters, all of whom outweighed him, and his terrific hitting power, considering his build, wove a popularity about him.

Jim Jeffries' bone crunching blows, his crouch and his imperviousness to punches placed him in a setting by himself.

Then came Jack Johnson with a speed, a defense skill and a ring cunning that made him one of the game's most talked of fighters—and would have made him a hero, but for his dissipations and disregard of social and moral conventions.

Jess Willard's giant stature was enough to give him color.

Jack Dempsey's terrific punches, which won him the title of the Manassa Mauler, his climb to the title over a field of prostrate heavies, and his dashing, slashing style of fighting in general made him probably the most popular of all heavies.

Then along came Tunney.

No color, the critics agreed. Didn't care to build any, either.

Fought shy of the obvious moves that would win him a place in the hearts of the fans.

But unconsciously or otherwise, Tunney is weaving about himself a new type of "color".

This through the medium of the baffling complexes he has acquired.

The public has come to feel that he is at least in earnest in his expressed habits, aims and desires. It has ceased to take with a grain of salt his expressed admiration for literature and the arts. Rather it must now admit that he is really a serious-minded young man following a definite purpose and willing to sacrifice opportunities to further his popularity to achieve his end.

Those who know Tunney best feel that he has already come to look upon his ring ability only as a blessing which is to be used to carry him to greater fields.

The very air of mystery which he has woven about himself and his pursuits is giving him "color".

Granting that Heeney is the best opponent from a box office standpoint it will be interesting to learn the final "gate" figures of that July bout. It will be a fairly accurate checkup on Tunney's standing as champion.

Start On New Arena Monday

Bill Jolly Leases Ground At Corner Of Sampson And State

MAY HOLD FIRST BATTLES MAY 15

Bill Jolly, who promoted fistic attractions at the Old Armory during the winter months, stated today that he had leased the Kaufman-owned land at the intersection of State and Sampson streets and the Lietterle Lumber company would commence erecting an arena to seat 2,500 fans, Monday morning.

Yesterday afternoon Jolly conferred with Jonas Kaufman and secured a large site occupied formerly by the Standard Wire Works. As soon as the plot was secured Jolly gave orders to the Dietterle company to commence erecting the arena with a seating capacity of 2,500 and Jolly plans to hold his first open air show May 15.

Babe Ruth Hits Ball Timely, Has Average Of .357

(International News Service)

NEW YORK, May 5.—After a poor start, Babe Ruth now boasts the respectable batting average of .357. In four times at bat against the Whtie Sox yesterday he got four hits, including his sixth homer of the season. Joe Hauser of the Athletics, who has replaced Lou Gehrig as the Babe's home run rival, also got one and now has five homers.

The pre-war stuff was more enjoyable for two reasons: It was older and you were younger.

Pirates Wallop Boston Pitchers

Paul Waner Pounds Out Two Doubles, Triple And Single

PITTSBURGH, May 5—The Pirates captured the second game of the series from the Boston Braves at Forbes Field yesterday, 13 to 3 when the Pirates went on a wild spree of hitting at the expense of a trio of Boston hurlers.

Grimes was strong throughout the game and was supported with good fielding, especially by Lloyd Waner.

Hornsby accounted for three of the Braves runs by driving in two and scoring another himself.

The willow attack by the Pirates was led by the Waners, Traynor and Comorosky. Paul Waner had four hits which included two doubles, a triple and a single. The box score:

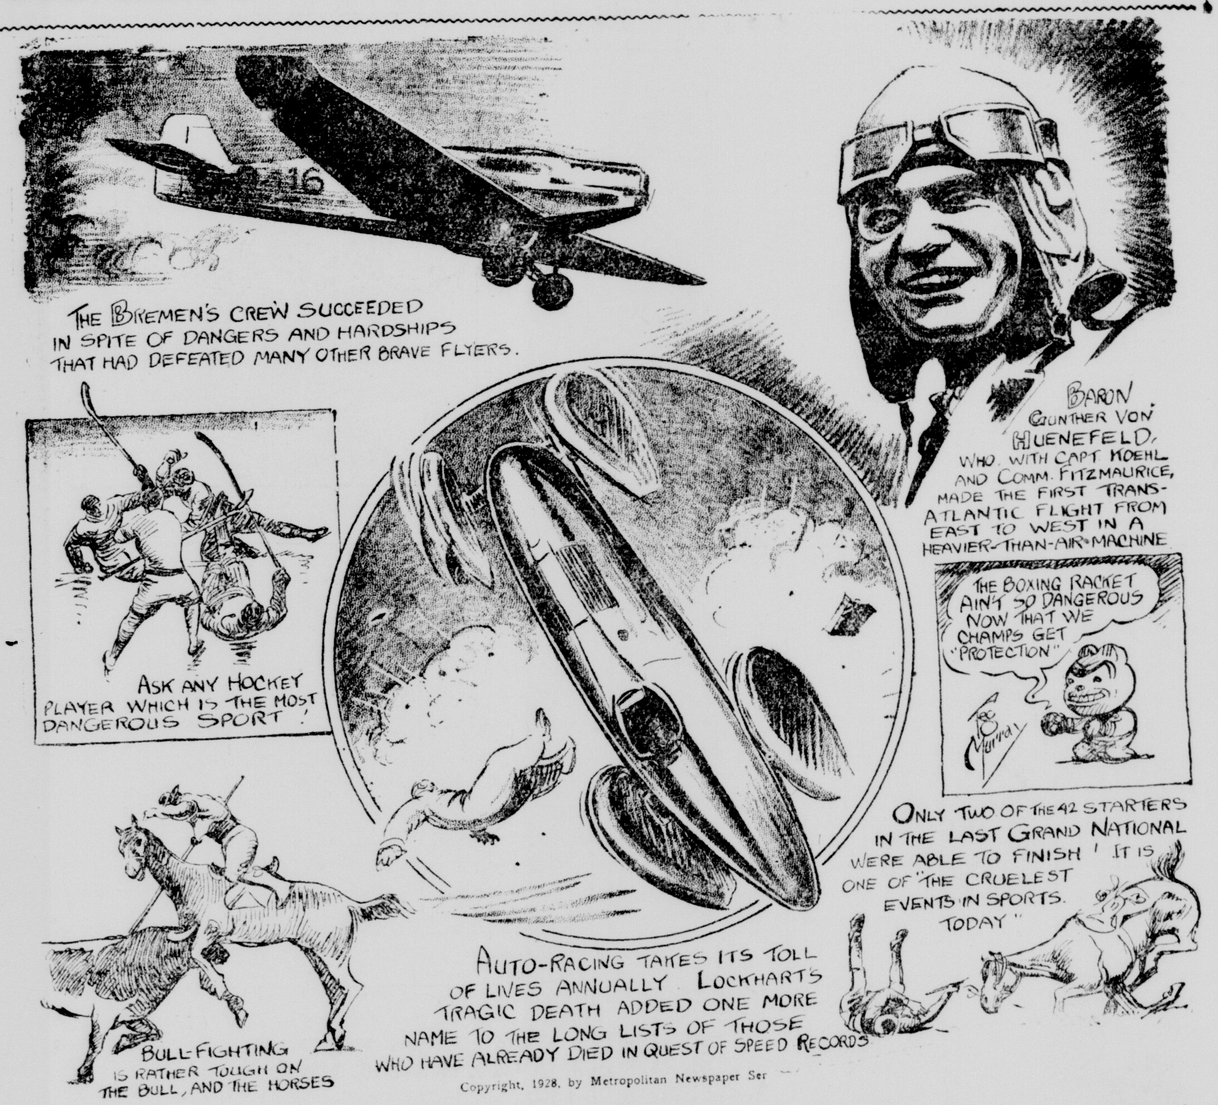
DANGEROUS SPORTS BY FEG MURRAY



Copyright, 1928, by Metropolitan Newspaper Ser

While transoceanic flights may be regarded by many as a business, nevertheless there is more than the usual average of sport in such a venture. Lindbergh, Byrd, Chamberlin, Maitland, Costes and Labrix, and others are all sportsmen who dared in the face of great dangers, and now the intrepid crew of the Bremen are the heroes of the hour because they too succeeded in triumphing over death in a great adventure of the air. Baron von Huenefeld, Captain Koehl and Commandant Fitzmaurice conquered where Nungesser and Coli, the Princess Lowenstain-Wertheim, Captain Hinchliffe and Miss Mackay, and many others failed in a glorious test between man's courage, coupled with a tiny bit of mechanism, and the elements.

Which is the most dangerous sport: aviation, auto-racing, football, boxing, polo, bull-fighting, hockey, horse-racing—or any of the other thrillers in sport? While which fatal accidents occur? While serious injuries are sure to happen in sports where there is the element of violent physical contact, as in boxing and football, nevertheless the supervision of such sports is so strict nowadays, and unconditioned athletes are so rarely permitted to enter a contest, that fatalities are few and far between, even though there are many times the number of competitors now that there were twenty-five years ago.

The quest for speed, in the air, on the track and on the water, has taken a large toll of lives. Frank Lockhart's tragic death at Daytona on April 25th, while going at a rate of 200 miles an hour, is still vivid in the memory of all sport followers, as is the sad fate of Flight-Lieut. Kinkead, the English Schneider Cup racer, who rove into the waters of the Solent while hurtling through the air in his seaplane at a speed of more than 300 miles an hour. Many other racing drivers of the air or race track have been "killed in action," namely J. G. Parry-Thomas of England, who met his fate at a speed of nearly 180 miles an hour; Jimmy Murphy, Dario Resta, Ernie Austerberg, Joe Boyer and Earl Wilson.

While statistics are not at hand, it would seem that the sport of aviation had exacted the greatest penalty from its devotees, with football next, then auto-racing. This writer has never seen a bull-fight, and doubts if he ever wants to see one. From what I have read and heard, its chief dangers are to the stomachs of the spectators.

New Castle Is Among Schools At Tech Meet

Coach Bridenbaugh Takes Fifteen Track Men To Carnegie Tech Meet Today

FIFTY HIGH SCHOOLS ARE REPRESENTED

(International News Service)

PITTSBURGH, May 5.—With the field and track in excellent condition new records were in prospect as 80 athletes from 50 high schools in western Pennsylvania and Ohio gathered for the 12th annual Carnegie Tech scholastic track and field meet here today in the Tartan bowl.

Boasting a team said to be equally as strong as the one which carried off the honors in 1927, Central High of Columbus, O., has strong hopes of again winning the event.

Among the prizes will be cups for winning schools and teams and medals for individual members. A cup will be awarded the school winning the meet, cups to the winners of the four classes of relays and medals to the team members.

While the hammer throw will be an optional event and will not count for points, medals will be given for the first three places, officials announced.

Among the schools entered are Lockhaven, Pa., high, East High of Akron, O.; Rayen High and South High of Youngstown, O., and teams from Salem, Steubenville, Warren, Wellsville and Struthers, O.; Greensburg, McKeesport, New Castle, Rochester, Washington, Beaver, Butler, Jeanette, Uniontown, Ligonier and others in Pennsylvania. All Pittsburgh schools entered.

Yale To Play Polo At Chester

Church League Baseball Season Opens Monday

Ten Teams Will Comprise Loop

Indications Point To Fast Circuit Among Churches This Summer

SEASON DIVIDED INTO TWO PARTS

Ten baseball teams, representing ten New Castle churches will open their 1928 season on Monday night May 7, it was announced today. Indications point to a fast league this season. All games will start promptly at 6:15 o'clock. Games will be played on Monday, Tuesday, Thursday and Friday of each week. The season will close on August 31.

There are two new teams in the league this year, the Temple Israel and Grace Congregationals. The other teams are as follows: First Christian, Central Christian, Central Presbyterians, First M. E., First Baptist, Mahoning M. E., Croton M. E. and Epworth M. E. The Third U. P. team was disorganized at the end of the 1927 season and they decided to give up baseball.

The Central Christians guided by Bert Evans rose to the championship of the Church league last year. The Centrals won the title only after a spirited playoff with the First Christians. The First Christians won the first half and the Central Christians won the last half.

Competition Keen.

Due to the fact there is no Lawrence County league this year many of the old time performers will be found in the role of Church league players. The league this year is going to be considerably faster than last season and the competition among the ten teams is very keen.

The league is sponsored by the New Castle Y. M. C. A. with Walter E. Kirker and John C. Leonard active in behalf of the interests of the loop.

The following will serve on the board of directors to handle all disputes and points of arbiaration: J. Love, Central Christian; H. L. Thompson, Croton M. E.; C. W. Irwin, First M. E.; W. M. White, Central Presbyterians; V. Caven, First Baptists; Alec Samuels, Temple Israel; H. L. Marvin, First Christian; H. L. McCurdy, Epworth M. E. and E. Davy, Mahoning M. E.

The following have been listed as managers of the various teams: S. Jones, Central Christians; F. E. Gibson, Mahoning M. E.; Phil Colaluca, Croton M. E.; C. Gail Brown, First M. E.; A. B. Jackson, Central Presbyterian; Howard Reed, First Baptists; Mont Blau, Temple Israel; J. A. Walters, Grace Congregational; Fred Smith, Epworth M. E.; Claude Patton, First Christians.

The umpires to handle the games this year will be Alec Black, H. H. Brooks, E. S. Parks, Tom O'Brien, Tom Heasley and Earl Riley.

Two Weeks Schedule.

Following the schedule of the league for the next two weeks:

Monday, May 7.

Croton M. E. vs. Central Presbyterian at Lehigh.

First Christian vs. Mahoning M. E. at Colonial.

Grace-Congregational vs. Epworth M. E. at Mahoning.

Tuesday, May 8.

Italian A. C. Is Returned Victor, Topples Mahonings

Twilight League Teams Stage Exhibition Game With Italian A. C. Winning

The Italian A. C. of the National league section of the Lawrence county Twilight loop, defeated the Mahonings of the American league section, in an exhibition game Friday night on the E. and A. grounds by the score of 3 to 1. The game was a pitchers battle between Mike Turco of the Italian team and a trio of the Seventh ward pitchers.

Both teams scored in the initial inning and were held scoreless thereafter. Ernie Palus opened the great exhibition with a single and later scoring on Bill Augostine's double, which brought havoc in the Mahonings, three runners scored on the extra base hit of Bill Augostine. McLuskey also hit for an extra base and scored Swinehart who opened with a single for the Seventh ward.

Mike Turco was in mid-season form and is expected to make trouble for the National league sluggers this coming season, struck out six batters and not a rnu was earned for the losers. The only run scored was donated by Tippy Richards on a passed ball.

The game ended in big league fashion and with a fast double play cutting the belated rally of the Mahonings short, Vallele, pinch hitting for Swinehart hit to Panas at short, who with lightning heave threw to F. Ross at second, killing R. Cangey who singled and was on. Ross then threw to Ernie Palus who completed teh double killing and the shortfield rally.

British Open Golf Tourney Opens Monday

Archie Compston Or Abe Mitchell Expected To Give British Title This Year

AMERICAN GOLFERS FAIL TO IMPRESS

By DAVIS J. WALSH
Sports Editor International News Service

NEW YORK, May 5.—Evidently, with Walter Hagen stopping that Compston wallop full on the complexion, the British have decided that the Eagle's scream this time is only a jolly old bleat of distress. Anyhow, the British open golf championship will begin at Sandwich on Monday and, for the first time since 1923, an American golfer is not the ranking favorite in the betting.

The American invaders—Hagen, Gene Sarazen, Tommy Armour, Jim Barnes, Larry Nabholtz and Bill Mehlhorn— are representativcs of preceeding visitations that brought back the title in 1921, 1922, 1924, 1925, 1926 and 1927. Yet the British have undergone a freudian alteration of viewpoint since Hagen, the American bellwether, thrust that arrogant chin of his out to take, receive, accept and otherwise become heir to that 18 and 17 defeat at Moor Park last week. No longer do the British look forward to one of those "Glorious defeats" or "moral victories." They have tasted American blood for the first time during this post-war era and have found it rather palatable.

In consequence, we have been regaled with stories to the effect that Compson and Abe Mitchell have been held reigning choices for the open at odds of 7 to 5. Now you tell one and I insist that it be one of your best. No golfer—not even the great Jones himself—is worth more than four or five to one in any given championship, and, if you think those British bookmakers are the kind of blighters who like to dabble in statistical innovations, then I suggest that you go right up to one of them and ask him to give you the right time for nothing.

The British figure these things no closer than a handcuff. They do so, first, because they are British and, second, because they have to handle a tremendous play on any sport event and naturally they can't afford to find some stranger's hand completely surrounded by their pockets. They would'nt give 7 to 5 that the King can speak English.

Therefore, if their form sheets show Compston and Mitchell in the short odds and the American back among the nominal choices, it only means that the Hagen debacle has had its effect and that the money is going in on Archie and Abe. It might do worse, at that.

Compston shot 67 66 and 70 in the Moor Park match and if he could play the open within fifteen strokes of that pace, he would be"in" like the one-ball in the side pocket. Compston proved he was not in that match and so nobody would be justified in betting that he has cooled out in the meantime. Mitchell is a sound bet because he is overdue for a major title and Sarazen is a course that demands length and accuracy, Abraham is presumed to have both.

People are too trifling to take preventative medicine. Why doesn't a paternal government slip it over in the gum on postage stamps?

Golfers Exuberant; Season Opening Today For Permanent Greens

WHETHER or not President Coolidge vetoes the McNary-Haugen bill, or despite what action the world court takes toward America, the golf nut is in seventh heaven today. Or perhaps a story or so higher. For know you, ladies and gentlemen, this is the day that the permanent greens are to be opened on the New Castle Field club golf course. And for authority for this statement of such far reaching consequence, we have the word of none other than that eminent disciple of St. Andrew, Captain V. Arthur Smith, he of the passionate socks and the burred tongue.

You ask what does that prove? Or what are permanent greens? Then for the benefit of those of the great unscrubbed, the members of the volgus populi, and the great seething mass of humanity that recognizes no difference between a dormie, a stymie and a mashie, be informed that permanent greens are those expanses of carefully nurtured grass in or about the center of which is located a hole, the object of the game being to put the little while ball in the hole. And the permanent greens are the ones which are used in the summer months replacing those alleged putting greens which are jestingly called greens and which are constructed out of a handy piece of fairway in the early spring.

Getting back to the first premise, then, following the lucid explanation above, you will gather that today is the day when the permanent greens are to be opened, and this feature is as important to the golfer as opening a bank account or a quart of Scotch. It marks officially, incontrovertibly, and unquestionably, the opening of the golf season, when the golf nut can get down to the serious business of shooting at par, when his wife marks the first day of her golf widowhood and the caddies learn new phrases of strange and altogether shocking language.

Only a true golfer appreciates the vast importance of the opening of the permanent greens. It is the beginning of the alibi season, the end of the winter, the window through which the golfing soul gazes out over a vista of six months of golf and not a hazard in sight. And this afternoon as you are shapening the blades of the lawn mower, or discussing with the friend wife the relative difference between Kentucky wonders and the good old fashioned wax bean, the golf nut will be out on the course, swinging, sweating, swatting and swearing.

Filled to the bridge of his classic Roman nose with enthusiasm, the golf nut is ready, ave eager and willing to get going. The sand boxes are painted a tasty white, a lot of rough has been cleared away, the greens have been put in that well known apple pie condition, and the fairways are nearly completely dried out. Down the sides of the Devil's Glen, or what is known as the green of No. 5, considerable brush and rock has been cleared away and the only thing left to spoil a par score is that dash blanked creek with its leering look.

Even the ladies are more than mildly thrilled over the opening of the permanent greens. The girls golf, you know—bless their little hearts—and like their four plussed brothers are waiting for a chance to try out the greens. Not on Saturday afternoon, however, not by an oversized jugful. The course is too full and the air is too blue for the shell pink ears of the sweet young things, but wait till Monday afternoon. Ah just wait, Mortimer!

Put this up on your calendar then this is the big day for the golfer this spring. The golfless days of the winter are over, the permanent greens are opened, the course is in wonderful shape and the locker room boy is making reservations. Sound the clarion call, twang the lute and turn on the radio, the golfing season is officially on. For which the golf nut raises his eyes to the Heavens and breathes, "Allah be praised".

Still, if you live in Chicago and behave yourself, you don't need a machine gun for "protection".

It's a hard world. And about the time a man learns to be hard-headed his arteries get that way, too.

Eastern Teams Appear Strong

By LES CONKLIN
International News Service Staff Correspondent

NEW YORK, May 5.—The East has the jump on the West in major league baseball's intersectional battles, having won all of the first six games played. Pittsburgh beat Boston yesterday, but the Braves took the first game of the series the day before.

The biggest surprise was the 3 to 2 victory of the lowly Boston Red Sox over Cleveland. Danny MacFayden bespectacled young Boston twirler, got the nod over Willis Hudlin. The Sox now boast a winning streak of two games and have sub-leased the American League cellar to Chicago.

Meeting rival pitchers for the first time this season, the sluggers showed a marked liking for their offerings and belted out 148 hits for a combined batting average of .347. Pittsburgh led the assault with 21 hits and the New York Giants were second with 19.

Babe Ruth and Joe Dugan of the Yankees, Pie Traynor and Adam Comoroskey of the Pirates and Paul Easterling of the Tigers had a perfect day at bat. The walloping Waner brothers got seven hits between them. Ruth slammed out his sixth homer and Joe Hauser got his fifth.

Giants Defeat Reds

The league-leading Giants chalked up their fifth straight victory, outslugging Cincinnati, 11 to 7. The Reds dropped to third place.

The Pirates made short work of Kent Greenfield, their nemesis last year, and swamped the Braves by a 13 to 3 count.

Hauser, Hale and Fox hit for the circuit as the Athletics trounced Detroit, 10 to 5. With a nine-run lead Jack Quinn eased up at the finish.

Herb Pennock, Yankee southpaw turned in his fifth straight victory of the season in subduing the Chicago White Sox, 10 to 4. Joe Dugan's homer in the first inning with the bases loaded practically ruined Al Thomas. Although accounted one of the league's best pitchers, Thomas has never beaten the Yanks.

Five St. Louis pitchers were carried off the field at Washington, the Senators rolling up a 13 to 6 majority over the Browns.

The St. Louis, Brooklyn, Chicago and Philadelphia National League clubs were held idle by rain.

Columbia Rules Favorite To Win Annual Regatta

Six Members Of Championship Team Back In Crew Gives Columbia Edge Today

FIRST BIG REGATTA OF SPRING SEASON

(International News Service)

PHILADELPHIA, Pa., May 5.—With six members of last year's championship, Poughkeepsie crew available, Columbia rules a slight favorite to defeat Yale and Penn here this afternoon on the Schuylkill river in the annual Blackwell Cup race. Last year, when the trophy was placed in competition for the first time, Yale won.

Yale's prospects are somewhat uncertain this year and little is expected from Penn, which in today's race will be making its competitive debut under Rusty Callow.

Most of the members of last year's Yale crew have been graduated, but Coach Ed Leader had some promising junior varsity men and a strong yearling eight presented by Mike Murphy.

Twelve crews took their final workcuts on the river last evening. Four races—the varsity, junior varsity, freshman and 150-pound event—are scheduled. The latter event, the first race on the program, starts at four o'clock.

Philadelphia is jammed with rowing enthusiastic gathering to witness the first big regatta of the 1928 intercollegiate rowing season.

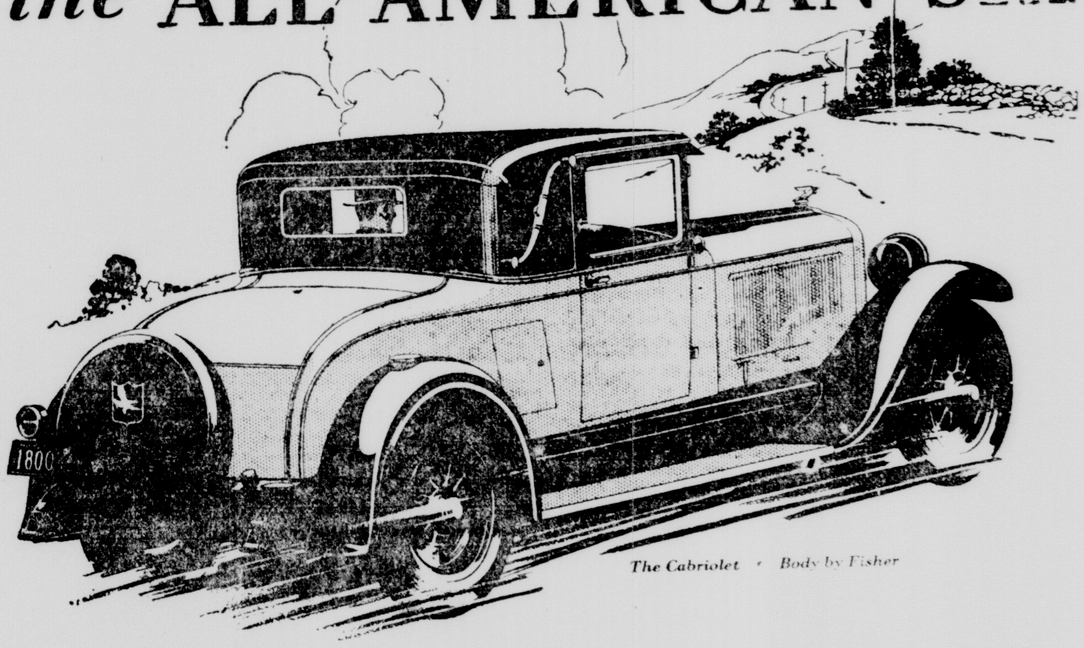
Never a road too long for the ALL-AMERICAN SIX



The Cabriolet — Body by Fisher

Wherever you may go. From Maine to California. From Canada to the Gulf. The length and breadth of this great American continent . . . never a road too long for the All-American Six.

For, above all else, it's reliable. It's sturdy . . . built to endure . . . proved by pitiless testing on General Motors Proving Ground. From its whispering brute of an engine . . . to its Fisher bodies constructed of hardwood and steel.

There's long life in every assembly . . . in every vital part. In its big self-adjusting, self-ventilating clutch . . . its smooth-shifting transmission . . . its perfectly matched connecting rod assemblies . . . its deep, rugged frame.

When you set out in an All-American . . . no matter how far or how fast you may drive . . . you can be sure of reaching your destination . . . in safety, in comfort, on time!

2-Door Sedan, $1045; Landau Coupe, $1045; Sport Roadster, $1075; Phaeton, $1075; 4-Door Sedan, $1145; Cabriolet, $1155; Landau Sedan, $1265 New Series Pontiac Six, $745 to $875. All prices at factory. Check Oakland-Pontiac prices—they include lowest handling charges. General Motors Time Payment Plan available at minimum rate.

What is a used car bargain? Is it a used car of uncertain age and mechanical condition, sold at a so-called "marked down" price? Or is it a good car, sold by a reliable dealer, for a price that he knows is fair? We know automobiles. That's our business. And we know what they're worth when we take them in trade on new Buicks. We always give our used car customers a square deal—both in the price and in the condition of the car. Our reputation is too valuable to risk by anything short of absolute fairness and honesty.

To Place Gate At Rear Of Cathedral

Ornamental Iron Gate Will Head Avenue Of Poplars Says Manager

At the head of the avenue of poplars at the south side of the Scottish Rite Cathedral, an ornamental iron gate will be placed in the near future according to Herbert Peairs, manager of the Cathedral.

The gate, says Mr. Peairs will be modeled after those of fuedal France, and will add materially to the appearance of the Cathedral grounds.

Trading Suspended On Stock Exchange, To Catch Up Work

(International News Service)

NEW YORK, May 5.—Trading was suspended today on the New York Stock Exchange and the Curb Exchange, in order to permit brokerage houses to catch up with the office work.

Few of the outside exchanges also closed for the half-day, though offices of the members remained open for routine business.

The banks and clearing houses were open for business as usual.

SORDS POINTS

Gerber Thirteenth Brown To Go In 'Exile'

By JACK SORDS,
Sport Cartoonist-Writer for Central Press and New Castle News.

Will number thirteen be lucky or unlucky for the St. Louis Browns this season?

That's the question that faces the Missourians as they go through their early season battles.

Just when St. Louis fans had it figured that the club had gotten rid of all its "undesirables" in the general housecleaning, which sent 12 good players to other clubs in the American league—Dan Howley announced the trade of Walter Gerber to the Boston Red Sox.

Manager Howley gets Pitcher Harold Wiltse in place of Gerber, who follows such capable fellows as George Sisler, Harry Rice, Bing Miller, Elam Van Gilder, Chester Falk, Milton Gaston, Tom Zachary Ernest Wingard, Leo Dixon, Otis Miller, Ken Williams and Sam Jones into "exile" from the Browns.

Next to Sisler, Gerber had seen the most service under the banners that blow over St. Louis. That makes him the second oldest veteran involved in the shakeup. Brown fans had come to look upon him as a fixture at short stop.

Gerber began his baseball career with the Marion club of the Ohio State league in 1910. The same year he went to Columbus in the American association.

Walter played with Akron of the Ohio and Pennsylvania league until 1911 when he went back to Columbus where he stayed until 1914, when he was taken on by Pittsburgh.

Pittsburgh sent the short stop back to Columbus in 1916. He came back to the big leagues when the Browns took a chance on him in 1917. It wasn't much of a chance, however, for he played short for the St. Louis club a solid decade thereafter.

Despite his long service in baseball—18 years—Gerber is still a good player and should bring strength to his new club, the Red Sox.

Lucius Osgood Is Dead At Johnstown

Death Of Former New Castle Man Occurs Shortly Before Noon Today

Word was received at noon today by Miss Margaret Garvin of the prothonotary's office, of the death of Lucius Osgood, at Johnstown, Pa., at 11:15 a. m. after an illness of some time.

Mr. Osgood will be remembered as a former resident of this city, residing here many years and being at one time, one of the prominent hardware merchants of this city, conducting a store on North Mill street.

He spent his earlier life here, being educated in the public schools of the city. He later entered upon a business career here.

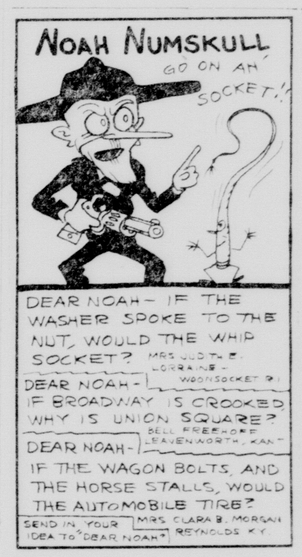
Mr. Osgood has been located at Johnstown, Pa., for the past eighteen years, during which time he has been manager of the Century Stove Company of that city. He was a member of the Presbyterian church of that city.

His step-mother, Mrs. Violetta L. Osgood, a resident of this city, preceded him in death a few weeks ago.

He is survived by his wife, who will be remembered as Miss Maude Garvin, one son, Jack Osgood, and a daughter, Clara Osgood, of Johnstown.

Funeral services and interment will be made in Johnstown, Pa.

If there is another war in Europe paying for the last will probably be the cause of it.



WEEKLY REVIEW OF NEW YORK MARKET

By W. S. COUSINS
International News Service Financial Editor

NEW YORK, May 5.—Industrial and railroad stocks moved through comparatively narrow price margins in active trading this week.

The Reserve bank at New York did not advance its rediscount rate as expected and the call loan rate returned to the 2½ per cent at the week-end, following completion of the May first financing of interest and dividends. The New York Stock Exchange reported a $267,000,000 in collateral loans during April and the Reserve Board's weekly compilation of the broker's loans showed an increase of $137,000,000.

Results of first quarterly operations of American Industrial and Railroad Corporations were reported quite fully for the benefit of the financial community. The falling off in railroad net earnings was smaller than expected, and the motor car manufacturers retained their position, as the best money-makers in the industrial list. Business conditions were reported as "spotty" by the commercial agencies, for which unseasonable weather was held largely responsible. Heavy speculation continued in the grain markets, with wheat advancing violently in the first part of the week, only to slump off on weather news in the late sessions.

The popular Standard oil stocks drew most of the speculative spotlight of the week. Buying of the shares of the Standard oils o' New York and N. J. by individual investors and investment trust accounted for the unusual market activity in these stocks and the rise in price to the highest levels since 1923. Curtailment of crude oil production, an increase in gasoline consumption, stiffening of refined oil prices, and recognition of their strong technical positions, were the principal factorss in the movement in oil stocks.

No Reserve Charge

A burst of speculative enthusiam greeted the announcement that no change had been made in the New York Reserve bank and it had retained the four per cent rediscount rate. General Motors and American Can reached up to new high price levels, the former pushing to above $200 a share for the first time in its present form. Bears in General Motors were put to flight in impressive form as the stocks soared higher and higher. Current prices for the stock are equivalent to nearly $625 a share, compared with the 1924 valuation of around $70 a share.

The rails continued active, though a flimsy condition appeared to have been built around the advance in the cheap rails with reputed consolidation possibilities. Among the investment rails, New York Central, Frisco common, and Southern railway moved forward impressively with good buying reported from the "best sources." Important new alignments in railroad property, particularly in the eastern territory are expected to follow the sale of Wabash and Lehigh Valley stock to the Penna. R. R. by L. F. Loree and the Delaware and Hudson interests.

Speculation Broadens

Speculative interest broadened out in the Motor and Copper stocks near the week-end, and buying demand increased despite the Copper stocks near the week-end, and buying demand increased despite the large increase in speculative borrowings and the closing of the market on Saturday. Chrysler Motor and Studebaker responded with higher prices to the official announcements of the increase in earnings in the first quarter, with the gratifying increase in incoming orders. The coppers reflected the improvement in the market for the red metal.

The commodity markets were steady at the week-end. Cotton was in demand in home and foreign markets and crude rubber sold faintly higher. Call loans returned to the 5 per cent rate on Friday.

Sons Of Veterans Present Program

Unique Entertainment Program Is Enjoyed On Friday Evening

FRANK HILL IS EVENT CHAIRMAN

Booster and get-together meeting of the Sons of Union Veterans and affiliated organizations held last night in the city building hall of the Sons of Union Veterans, was unique in many ways. The form of entertainment was unusual, while the interest manifested was such as to indicate a general renewal of interest on the part of the members of the organization.

Frank Hill was chairman of the evening. The program consisted of music, special athletic acts by a group of Y. M. C. A. boys under the leadership of Walter Kirker, the thrilling, death-defying acts of Soldo, the man of mystery, and a brief address on Memorial Day and what it means, by R. M. Campbell, past commander of the Pennsylvania division, Sons of Union Veterans. The large crowd in attendance was thrilled by the performance and it is possible that in the future the organization will hold other meetings of equal interest.

The evening was opened with a verse of America, after which S. H. Gilbert, chaplain of Oscar L. Jackson camp, Sons of Union Veterans, led in prayer. At various periods during the evening the Castleton orchestra, consisting of a group of school boys, Claire Reed, Jack Treser, Clyde Perrine, Harry Perrine, Gene Wolf, Bob Erwin and Howard Hunter, rendered pleasing selections.

The first of the acts presented during the evening consisted of tumbling and other athletic acts by Walter Kirker and his Y. M. C. A. boys, interspersed by some real comedy by Jack Llewellyn. The group participating consisted of Hiles, Bobosky, Uram, McNicholas, Cartwright, Kelly, Johns, Sage, J. and A. Soyring, Woods, Space, Lutz, Llewellyn and Kirker.

The climax of the evening came in the two acts of Soldo, better known as Sol Davis. The first of his acts was that of getting out of a tightly locked and bound box, after being securely handcuffed, without disturbing a bowl of goldfish on top of the box. The other and most difficult act was that of getting out of a mass of chains about his neck and ankles and with his hands handcuffed behind him. This unusual act brought forth great and enthusiastic applause. Lieutenant of Police Hillers, Officers James Steiner and George Wyman, former Sheriff William Andrews and Prothonotary R. M. Campbell inspected the chains and handcuffs and saw that they were used properly.

The address of R. M. Campbell followed, after which refreshments were served by the committee of the Sons of Veterans and the committee of the auxiliary to Oscar L. Jackson camp.

ABE MARTIN On Mort Purviance

MORT PURVIANCE ALLUS TH' FRIENDS O' TH' UNDER DOG

One o' th' most pop'lar p'litical selections ever made in this county wuz th' appointment, this week, o' Mort Purviance t' fill out th' unexpired term o' Deputy Sheriff Al Moots, who wuz recently poisoned in a raid. Mr. Purviance wuz born at Roundhead, Ohio, in 1878. His father wuz prominent politically, an' would have been postmaster under Tilden, if th' latter had not been counted out. Even as things turned out he hauled th' mail between Kenton, Ohio, an' his home town fer many years. Mort Purviance graduated from Miami University. Also from th' Cincinnati Law School, an' th' Spencerian College o' Penmanship. Later he represented several large eastern nurseries. He founded th' Excelsior Veterinary College, an' wuz active in encouragin' our farmers t' raise t'maters. Mr. Purviance is Past President o' th' Skunk Ridge Bar Association, an' is at present a member o' th' Executive Committee o' th' Skunk Ridge Bar Association. He represents th' Organ Pumpers' Union, an' is a member o' th' Executive Committee o' th' Skunk Ridge Tile Company. He is a Director o' th' Chamber o' Commerce an' a cornet player o' marked ability. Also he is Secretary o' th' Skunk Ridge Auto Club, an' member o' th' house committee o' th' Hazel Nut Country Club. He holds office in some thirteen lodges, an' wuz responsible fer bringin' a Standard Oil fillin' station t' our town, an' it wuz thro' Mr. Purviance's untirin' efforts an' kindly feelin fer the less favored that hitchin' racks about th' courthouse are allowed t' remain. Mr. Purviance has th' distinction o' bein' one o' th' two citizens of our county who voted fer Governor Cox fer President, an' is also one o' th' stockholders o' th' Nifty Vulcanizers, Inc. Early this spring when th' Organ Pumpers' Union thought some o' holdin' ther annual convention here, dry officials gave out th' statement that ever' effort would be made t' make th' town dry, whereupon Mr. Purviance allus th' friend o' th' people, an' President o' th' Commercial Club, fearin' bloodshed an' unfavorable publicity fer th' town, prevailed on th' Convention Committee o' th' club t' request th' Organ Pumpers t' select some other locality. Things like this have made Mr. Purviance very pop'lar with our people, an' besides he organized our first Elks' Club. Mr. Purviance is a past president o' Rotary club an' th present president o' th' Kiwanis Club, and has voted fer several Republicans in his time, three, I think he said, one a reform mayor fer Mansfield, O. Mr. Purviance wuz nearly appointed twice on th' Gov'nor's staff, an' is invariably spoken of fer county surveyor ever' spring. Mr. Purviance is strongly o' th' opinion that our next war'll be fought in th' air, an' is a vehement fighter agin th' exploitation of our potash deposits by private capital. Mr. Purviance has two sons fight'n' under the American flag, one in Nacaraugy, an' one in Chiny, an' wuz th' first citizen of our town t' break with President Wilson on th' League o' Nations issue. Mr. Purviance wuz married in 1898, an his wife resides somewhere in Iowa, but he would easily be taken fer a man o' thirtyfive. It's no trouble to appoint good men, but it's hard t' elect 'em.

Roaming Round With Richards

Some News, Some Views, But Mostly Just Observations Of Interesting Things Around New Castle

'Nuther parade this morning, this time a pet parade with apparently all the pets in the city in the lineup. Dogs that looked like cut down editions of a circus elephant, and others that would have fitted in a good sized purse.

Dogs as ugly as original sin, and others with all the appearance of a long line of good relations back of them. It was a big day for the youngsters, and the judges had more trouble deciding the winner than a judge in a beauty contest.

It also closed Boys Week, which was sponsored by the local Rotary club.

Got a letter from Akron, O., today from Al Harris, in which he takes a series of dirty cracks at Roger Francis' 18 inch gold fish. Al heads his letter "Akron, O., May 4, 1928, the city that stretches only rubber and leaves the fish to Nature." With all the sublety of a road roller hitting an open ditch, he suggests that somebody has gone too far in the matter of gold fish, and then suggests that the sea gull mentioned by Bud Fleeger is a touch of realism. The letter deserves only dignified silence, and waving the typewriter at Al in a compacent and nonchalant manner the answer is "poof!".

Somebody had to be first with a straw hat. And the boys down in the Leslie lunch room were dazzled Friday, noon, when Edward Davis walked in with one of the creations on. Its over a week early for straws but then some one had to be first.

The sudden warm spell of the past few days have done wonders for the fruit trees. The peach trees are a blaze of pink, the pear trees look like huge snowballs, and the leafy trees like the maples, are overcoated in a mantle of green. Just to walk along a country road these afternoons or ride over them in the dusk of the evening is a treat.

Now if King Winter doesn't come back for his muffler and hit the fruit trees just south of the nose, everything will be under control.

Opening a new firehouse with a dance is something new in the way of entertainment, but the firemen of the city are going to do just that with the new Central station on South Jefferson street. The tickets are out for an opening dance on June 28, and you really should have a couple of them. The proceeds are for the benefit of the paid firemen's relief fund.

Holding a dance in a fire station has its advantages. If Ted Marlin or some of his musicians happen to get hot, somebody can turn the hose on them. Wonder just what tone a saxophone would produce if a stream of water hit it. Would you call the tone, "liquid tones?"

And even if you never go near, you can afford to take a ticket.

DAIRY FIELD DAY AT VOLANT IS ARRANGED

Plans were made to hold a community dairy field day at Volant on June 7, announces County Agent H. R. McCulloch following a meeting which took place Friday evening in the directors' room of the Volant National Bank.

The program will include a dairy cattle judging contest and demonstration, says Mr. McCulloch. E. B. Fitts, dairy specialist from the Pennsylvania State College, will be a judge at the show and also take part in the speaking program which is being arranged for the afternoon.

Milo Moose heads the general committee for the field day. Other committee heads are as follows: program, W. S. McKean; finance, G. C. Welker, and general arrangements, N. O. Allen.

Capt. Craig Will Conduct Meeting

To conduct a meeting of the artillery unit of the 174th Field Artillery Brigade, 99th division, Captain Melvin L. Craig, in charge of Officers' Reserve work at New Castle, has been ordered to Pittsburgh Tuesday evening, May 8.

The subject which will be discussed at the meeting, it is announced, will be "Preparation and Calculation of Firing Data". After the lecture Captain Craig will conduct an open forum.

Garlands To Play Game On Monday

The West Pittsburg Garlands of the American section of the Twilight League and the Clifton Flats team of the same circuit, will hook-up in an exhibition game at West Pittsburg on Monday night at six o'clock.

The game will be started at six o'clock eastern standard time, said "Pop" Adams, manager of the Garland team, today. The Garlands defeated the Clifton Flats team 3 to 1 in a game played at the Flats field on Friday night.

KULPMONT, Pa., May 5.—When Charles A. Ambrose, local attorney, who was defeated for the Democratic nomination for state sentor in this district filed his expense account it was found that he spent only two cents during his campaign. This amount Ambrose said, was used to mail his petition to the county seat at Sunbury.

Mahoningtown Car Service Starts Sunday

STREET car operation between Mill and Washington streets and the Baltimore and Ohio railroad station in the Seventh Ward will be resumed.

SUNDAY, MAY 6

This street car line has been completely rebuilt at a cost of $70,000 and is ready for the operation of cars.

From Mill and Washington streets the route extends through Mill street, Long avenue, Moravia street, Mahoning avenue, Cedar street, Clayton street and Liberty street to the Baltimore and Ohio station.

Cars will operate at a ten-minute headway through the heavier traffic periods of the morning and evening and at an eleven-minute headway the remainder of the day. All-night service will be given on an hourly headway, the first of the night cars leaving Mill and Washington streets at 1:05 a. m.

Simultaneously with the resumption of street car service on the Mahoningtown line, the motor-bus service to and from Mahoningtown by way of Atlantic avenue, which has been operated under a temporary certificate of convenience granted by the Pennsylvania Public Service Commission, will cease.
